2. **Elections.**—General elections were held in 25 municipalities and most of the seats were hotly contested. In the small town of North Barrackpore about 85 per cent. of voters were persent at the polling station. These contests, while indicating that keen interest is being taken in elections generally, may to a certain extent be attributed, especially in Narayanganj to the excitement caused by Swarajist attempts to capture most of the elected seats. Civil suits were instituted or were pending during the year in connection with election or bye-elections in no less than nine municipalities, Dacca, Chittagong, Rajshahi, Noakhali, Pabna, Suri, Narayanganj, Katwa, and North Barrackpore. The number of such suits and the time taken to dispose of them are strong arguments for the establishment of special tribunals with powers of final decision of election disputes. Provisions for setting up such tribunals were inserted in the Bengal Municipal Bill of 1925, but as the motion for the introduction of that Bill was rejected by the old Legislative Council nothing could be done to remedy the present state of affairs. The Minister for Local Self-Government hopes to reintroduce this Bill in the expectation that the new Council will not dispose of it so unceremoniously.

3. **Meetings.**—Out of 2,354 meetings held during the year 153 proved abortive for want of a quorum and 199 were adjourned, against 151 and 187, respectively, in the preceding year. The failure was most marked at Kotchandpur where 13 out of 34 meetings were abortive and the same number had to be adjourned. Sonamukhi also had 10 abortive meetings out of 16. Mr. Cook observes in this connection:—

> The increase in the number of abortive meetings is undoubtedly to be deplored, as it means that a large majority of the members had not sufficient interest in the municipal affairs to induce them to attend. After reading a good many minutes of meetings, I cannot help having some sympathy with members as frequently the only items of business are of a routine nature, which might easily be left to the executive.

At Baduria nearly half, and at Nabadwip and Berhampore more than one-third, of the number of meetings held was unsuccessful. Rajshahi held the largest number of meetings, *viz.*, 53, and was followed by Tollyganj with 48. In the Burdwan Division no less than five municipalities held more than 30 meetings and in this connection the Commissioner of the Division remarks:—

> I am not at all sure that a large number of meetings is a sign of healthy working. On the contrary, its obvious meaning is a number of postponed meetings in which no work could be done as the result of faction.

On the other hand, the Commissioners of North Barrackpore and Ranaghat failed to meet once a month. In the Presidency Division the attendance of Commissioners was on the whole fair, but it was very poor at Baraset.

4. **Number of rate-payers.**—The total number of rate-payers rose from 317,895 to 321,819. It is reported that owing to the extension in the area of three wards, the population of the

Noakhali Municipality has increased from 7,715 to 13,087. The percentage of rate-payers to total population, *viz.*, 15·8, was practically the same as in the preceding year. The ratio varied from 40·1 in Sherpur to 3·2 in Titagarh—a mill town with a large cooly population. Other towns in which rates are paid by less than one-tenth of the people are the hill stations of Darjeeling and Kurseong and the several riparian mill municipalities, including Narayanganj—a town with a floating population of factory operatives living with their employers and paying no rents themselves.

5. **Assessment and Taxation.**—The average incidence of taxation per head of population rose from Rs. 3-0-4 to Rs. 3-1-5. It was highest in the hill municipality of Darjeeling (Rs. 10-7-10). Next come Howrah (Rs. 8-11-11), Kurseong (Rs. 8-11-1), Chittagong (Rs. 6-5-2) and Burdwan (Rs. 4-15-0). In five other municipalities, *viz.* Mymensingh, Narayanganj, Jessore, Berhampore and Hooghly-Chinsurah the ratio was above Rs. 4. In the last named town the increase is due to the imposition of a lighting rate (electric light) at 3 per cent. on the annual value of holdings, which has increased the municipal income by nearly Rs. 15,000 per annum. In Bajitpur and Debhatta the ratio is as low as 7½ annas and in 21 municipalities it is from 8 annas to one rupee. Generally speaking, the incidence of municipal taxation in the Presidency is extremely low, although it does show a distinct upward tendency, and a low pitch of taxation necessarily spells a low standard of municipal service. Thus, as worked out by the Examiner of Local Accounts, the expenditure was below one anna and a half per head of population under Medical in 22 municipalities, under Sanitation in 29 and under Education in 40.

During the audit of accounts of certain municipalities it was noticed by the Examiner of Local Accounts that while the tax on private holdings was levied at 5 to 6¼ per cent. on their annual value that on Government holdings was assessed at the maximum rate of 7½ per cent. Such discrimination is as illegal as it is unfair and steps have been taken to have it discontinued.

A general or partial revision of assessment was made in 84 municipalities, the net result being an increase of about Rs. 1½ lakh in the municipal demand of the Presidency as a whole. The largest increase, *viz.* Rs. 21,530, was obtained in Asansol, but the bulk of this had to be remitted owing to an amicable settlement with the East Indian Railway with regard to the assessment of railway holdings and to the reduction of the scale of latrine fees from 6 to 3¾ per cent. Then come Bhatpara with an increase of Rs. 17,679, Howrah Rs. 14,463, Krishnagar Rs. 11,503 and Bally Rs. 10,159. As a result of the extension of Part IX of the Bengal Municipal Act to the eastern side of the Doliakhal, the Commissioners of the Dacca Municipality expect an additional revenue of about Rs. 6,000 per annum from latrine fees. On the other hand, Howrah suffered a loss of Rs. 12,950 in latrine fees owing to the acquisition of several plots of municipal land by the East Indian Railway and Baraset Rs. 1,760 from a revision of assessment on Government buildings.

6. **Collections.**—The total collections for the Presidency as a whole increased from 59 lakhs to more than Rs. 60¼ lakhs, but the percentage of collection on the current demand fell from 95·3 to 94·3, the lowest ratio (68·6) being returned by Rajpur. The low percentage in Rajpur was due to short collection in the first half-year on account of revision of assessment in the previous year and to delay caused by changes of Tax Daroga. In 28 municipalities the collections were equal to or in excess of the current demand and in 18 they were over 99 per cent. On the other hand, in 8 municipalities the ratio was under 85 per cent. falling as low as 69·1 per cent. in Bally. The poor collection in Bally is reported to be due mainly to party faction and partly to slackness and defective supervision on the part of the municipal executive. The Commissioner of the Division makes the following observation with regard to this municipality:—

A number of the commissioners are more concerned with their own position and power or the advantage of their own ward than with the good of the Municipality generally. The unfortunate and disquieting consideration is that in this Municipality, we have possibly the most educated and, one could have expected, enlightened body of voters that Bengal can produce. The results in this Municipality are enough to make the most optimistic despair.

As in the previous year, Nalchiti collected cent. per cent. of the demand without any remission and Garulia as usual did the same. Titagarh, Champdany and Bhadreswar also collected practically their whole demand, granting less than half per cent. remission and leaving no outstanding balance—a result most creditable to the municipal commissioners. In these towns, however, the bulk of the taxes is paid by the mills, leaving a small percentage to be collected in the ordinary way.

The amount of remissions for the province as a whole declined from Rs. 2,86,844 to Rs. 2,28,341 and represented 3·6 per cent. of the current demand. The small municipality of South Dum Dum remitted more than one-fifth of its current demand; Asansol and Sirajganj nearly 15 per cent., while four others, *viz.* Panihati, Budge Budge, Tollyganj and Jalpaiguri, remitted more than 8 per cent. The high percentage of remission in Asansol (14·7) has been explained above. No explanations have been given for the large remissions in other towns but they are not far to seek. Large remissions are the logical sequence of carelessness and illegal assessment, inefficient collection and reluctance to enforce the summary procedure provided in the Bengal Municipal Act.

The following are some of the glaring instances of irregular remissions granted by the Municipal Commissioners, which were noticed by the Examiner of Local Accounts in his report on the working of the Local Audit Department during the year 1924-25 :—

The Municipal Commissioners of Darjeeling granted remissions within the currency of assessment for voluntary demolition of buildings. On legal advice, however, they have since given up the practice.

Irregular remissions on the ground of vacancy under section 110 of the Act were noticed in *Burdwan, Perojpur, Bhola*, and *Satkhira Municipalities*.

Latrine tax on vacant holdings was remitted in full though only half-remission was admissible, by the Municipalities—*Kumarkhali, Jangipur, Basirhat, Rajpur* and *Baduria.*

Even though the appeal committee had rejected the petition, the Chairman of the *North Barrackpore Municipality* reduced the taxes of a holding. A similar irregularity was noticed at the Jessore Municipality.

In the Khulna Municipality, remissions were granted in respect of certain holdings on the ground that the assessees had paid the maximum personal tax in respect of other holdings. Latrine tax was illegally remitted by the Baranagar Municipality for the holding used as the Ramkrishna Anath Ashram.

The balances outstanding at the close of the year rose from Rs. 13 lakhs to Rs. 14¾ lakhs, of which Howrah alone was responsible for more than Rs. 5 lakhs. It is reported by the Howrah Municipality that a sum of Rs. 36,140 was collected on the 31st March 1926 which was credited in the Imperial Bank on the day following. The net balance therefore comes to Rs. 4,79,698 of which about Rs. 2½ lakhs is on account of old arrears. Other municipalities which had unduly large balances outstanding were Dacca, Mymensingh, Bally, Hooghly-Chinsura, Tollyganj, Barisal, Narayaganj, Bankura, Chittagong and Sirajganj. The following explanation has been given for the continued unsatisfactory collections in the four larger municipalities in the Dacca Division :—

> In Dacca the agitation against the assessment is still going on and it is proposed to test its legality by an appeal to the Privy Council. In Mymensingh the municipality has been hampered to some extent by the confusion caused by the prosecution of two of their officers for defalcation. In Narayanganj the bad collections are attributed to the fact that the municipal elections were held during this year and in Barisal to the fact that the Chairman and Vice-Chairman have little time to spare for municipal work.

The reason for the heavy balance in Bally has already been stated. The heavy arrears at Tollyganj, representing 44·2 per cent. of the current demand, are reported to be due to the accumulation of large irrecoverable arrears—hardly a satisfactory explanation. The balance in Chittagong consists of Rs. 2,204 due on Government buildings and of Rs. 16,134 due by private individuals. Generally speaking, the heavy arrears are due to laxity on the part of the municipal executive in taking legal steps for the realization of taxes, as provided in the Act. Some Municipal Commissioners were themselves the worst defaulters. The Examiner of Local Accounts reports that in Joynagar,

Barrackpore, Chittagong, South Dum-Dum, North Dum-Dum, Satkhira, Netrokona, Mahespur, Rangpur and a few other municipalities, several Commissioners, and in one town the Vice-Chairman himself, did not pay their taxes promptly; and he remarks that when the Municipal Commissioners themselves do not pay their dues within the statutory time limit they commit an offence which can hardly be overlooked. The Minister agrees that such default shows a complete lack of civic sense and indicates unfitness for the position of a Municipal Commissioner. The suggestion made by the Examiner that there should be a provision in the Act that a Municipal Commissioner who does not pay his taxes within the statutory limit would render himself liable to be disqualified, will be considered when the Bengal Municipal Bill is introduced.

7. **Income and Expenditure.**—The total receipts including opening balance rose from Rs. 1,06,03,381 to Rs. 1,06,64,253. The total disbursements were Rs. 88,72,440 as against Rs. 86,13,713 in the year 1924-25.

8. **Closing balance.**—The total balance of the year amounted to Rs. 17,91,813 as against Rs. 19,89,668; the largest being held by Howrah (Rs. 3,92,335) for which no explanation has been furnished. Five municipalities had closing balances of over half a lakh *viz.*, Darjeeling (Rs. 97,375), Bhatpara (Rs. 78,022), Naihati (Rs. 76,882), Suri (Rs. 52,750) and Dacca (Rs. 51,351). The balance in Darjeeling, it is stated, is due to the difficulty experienced in carrying out certain capital work for want of materials. In Naihati, Bhatpara and Suri the major portion represents funds for the improvement of water-supply and sewerage schemes and in Dacca it includes uncashed cheques for Rs. 30,442 and the Government grant of Rs. 17,193 for the sewerage scheme, leaving a cash balance of Rs. 2,716 only. On the other hand, a number of municipalities failed to keep adequate working balances and in several instances these were insufficient to meet outstanding liabilities. Debhatta closed the year with a balance of Rs. 13 only and in Raniganj, Baruipur, Santipur, Mahespur, Mymensingh, Sirajganj and Faridpur the outstanding liabilities largely exceeded the closing balance. The worst offenders in this respect were Baraset and Azimganj which had outstanding liabilities of Rs. 2,777 and Rs. 2,360 respectively, against actual balance of Rs. 497 and 795 only, and Hooghly-Chinsura which closed the year with a sum of Rs. 10,067 but with liabilities exceeding Rs. 44,000.

9. **Education.**—The total amount spent on education, including the Government grant of Rs. 1,14,379, rose from Rs. 2,94,321 to Rs. 3,81,324 and represented 5 per cent. of the municipal income. The expenditure on primary education also showed a corresponding increase of Rs. 63,000 which is contributed by all the Divisions except the Presidency. The increase was most marked in the Darjeeling Municipality, where the expenditure rose from Rs. 10,744 to Rs. 37,249, and is attributed to the liquidation of half the mortgage purchase of the site for the boys' primary school. Seventeen municipalities however, or roughly one in seven, failed to spend 3·2 per cent. of their ordinary income, the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the ratio was over 5 per cent. in 60 municipalities and over 10 per cent. in 15. More than half the amount spent on education (*viz.* Rs. 9,205) in Rangpur was derived from the education cess which is levied at the rate of 1·6 per cent. on the municipal valuation.

A free primary school of the improved type was established in Kalna and a sum of Rs. 8,900 was spent by the Asansol Municipality in constructing one of the four primary school buildings according to Mr. Biss's scheme. In Burdwan a new primary school was opened at Purathan Chak. A recurring grant of Rs. 4,005 was sanctioned by Government for the expansion of free primary education at Berhampore where an education cess at the rate of 1 per cent. is being levied from the beginning of the current year. The Municipal Commissioners of Garulia have also decided to impose an education cess of ½ per cent. to meet half the expenses of primary education under Mr. Biss's scheme which has also been taken up in right earnest by the Budge-Budge Municipality. The Madaripur Municipality started two free primary schools on the Biss model, making a total of seven such schools. Most of these schools are at present located in private houses. The scheme for free primary

education in the town of Chittagong was sanctioned by Government provisionally for three years and 22 schools with 1,149 pupils were established in different centres.

10. **Water-supply.**—As in the previous year, Tollygunge and South Suburban Municipalities were supplied with filtered water from the Calcutta mains. Seven mill municipalities lying on both sides of the Ganges got their supply from the local mill filters. Excluding these there are 29 municipalities which have their own water works. The number of persons supplied with filtered water was 927,650, the total quantity supplied averaging nearly 11 million gallons per day.

The Suri water-supply scheme and the scheme for the improvement of the Bankura supply were in progress. Experimental borings at Suri showed that tube wells are impossible as a source of supply and an infiltration gallery under the river was finally adopted. At Bankura a new engine was erected and set to work, but owing to the reluctance of the Municipal Commissioners to accept steel mains for the distribution system, the extension of the pipe lines could not be taken in hand before the end of the year. The Raniganj water-supply scheme could not be completed for want of funds. An additional grant of Rs. 17,500 and loan of the same amount from Government together with the promised contribution of Rs. 15,000 from the Asansol Local Board will, it is hoped, bring the work to completion. A sketch project for the improvement of water-supply in Asansol has recently been administratively approved by Government. The Berhampore water-works continued to be managed by the Public Health Department; the financial position was greatly improved and as a result of the various economies effected it was found possible to sanction 20 additional house connections. The Naihati water-supply scheme has been approved while the Bhatpara and Panihati schemes are maturing. A scheme for the extension of Khulna water-works was sanctioned by Government at an estimated cost of Rs. 58,400. A scheme for the improvement of water-supply at Patuakhali was sanctioned at a cost of Rs. 66,000 towards which Government made a grant of Rs. 28,000 and a loan of Rs. 11,000. The laying of pipes in Narayanganj under the Hajiganj Nalkhali bridge has generally improved the water-supply to the Chasara quarters, and the Municipal Commissioners have under consideration a proposal for the extension of the water-supply to the east side of the river Lakshya.

To check the excess consumption and wastage of filtered water at Mymensingh arrangements were made for the installation of meters at a cost of Rs. 14,700, the major portion of which would be met from deposits made by the rate-payers.

The Comilla water-works were completed during the year, while administrative approval was given to the water-works of the Brahmanbaria Municipality at an estimated cost of Rs. 1,09,300, towards which Government will make a contribution of Rs. 29,300 and a loan of Rs. 20,000.

The Ronaldshay water-works at Rajbari were rather a white elephant until the year under report. At the time of the year when good drinking water was really scarce, the municipal supply failed almost entirely in quantity and was unsatisfactory in quality. To meet the situation a 2-inch diameter tube well was sunk to a depth of 200 feet at a cost of Rs. 2,500 which was entirely met from private donations. The well has proved most successful, about 10,000 gallons of pure water being distributed daily among a population of 3,000.

The experimental boring of a tube well as a part of the scheme for the supply of water to the northern section of Chandpur was commenced during the year under the supervision of the Public Health Department.

Tube wells were also resorted to in several other towns. In Bally three tube wells were sunk by the East Indian Railway, one by the proprietors of the Victoria Cotton Mills and another by the Municipality. Excellent water is now supplied from these to the whole of the railway settlement and to Ward No. IV. The small municipality of Birnagar with the co-operation of the Palli Mandali, a local association, sank 6 tube wells and a pucca well, reclaimed two tanks and cleared all the pucca wells at a cost of over Rs. 9,000. The sinking of a 5-inch diameter tube well in Kanchrapara was in progress while negotiations were made by the Halisahar Municipality with the Hukumchand Jute Mills for the supply of tube well water to the town. The Municipal Commissioners

of South Dum-Dum also have taken up a scheme for sinking deep tube wells in different localities where there are no pipes. The boring of a tube well in English Bazar for which Government made a grant of Rs. 11,000 was completed during the year, but the question of financing the distributory scheme has not yet been solved. The well has proved successful and yields 8,000 gallons of water per hour.

11. **Conservancy.**—There was an increase of Rs. 1¼ lakhs in the expenditure under this head which was due to various causes (*e.g.*, construction of new methars' sheds, purchase of conservancy tools and implements, increase in the number and pay of the staff and a rise in the price of fodder for livestock). As usual, the conservancy charges were Rs. 4½ lakhs in excess of the receipts from latrine fees which rose by only Rs. 23,000. There is often unwillingness to raise the rate of fees so as to make the latrine fund self-supporting and deficit balances are only too common. In Darjeeling, Kurseong, Krishnagar and North Barrackpore the deficit exceeds Rs. 5,000, and in Jessore and Rangpur it was nearly Rs. 32,000 and Rs. 18,000, respectively. The Minister desires to impress upon the Municipal Commissioners the need for making each of the special funds (*e.g.*, latrine, water service) self-supporting as required by the law. There is great difficulty in obtaining methars in the Presidency Division for municipal service. Mr. Graham, Magistrate of Nadia, writes:—

> Indeed, the problem of the conservancy staff is a grave one even in the big municipalities. I doubt whether the gravity of the situation is sufficiently appreciated. Everywhere there is a shortage of sweepers. In Krishnagar, there are 198 jobs for menials, including inferior inspectors, night-soil men, road and drain cleaners, cartmen and trenching ground men. To fill these jobs there are only 138 men and women. At Nabadwip on paper there are 118 posts, but less than 80 men and women are available to fill them. At Santipur matters are still worse. There are 142 jobs and 72 men and women only constituted the full available staff. The Commissioners of Krishnagar have made enquiries for sweepers in Behar and in the Central Provinces. They are not obtainable. Furthermore, if the jobs could be filled, there would be a strike everywhere unless wages were raised 50 per cent. all round. The men are only content because they get double pay by doubling jobs. The insubordination of these staffs is becoming a great menace to town health.

And Mr. J. N. Gupta, the Commissioner, remarks:—

> The problem of the conservancy staff is a grave one even in the big municipalities. Everywhere there is shortage of sweepers. The moral perhaps is to depend less on the human factor and to push on with sewerage schemes and the installation of septic tanks.

Generally the Conservancy Departments were under the supervision of Health Officers and Sanitary Inspectors, where there were such officers. The total charges on account of these officers amounted to Rs. 1,63,135 against Rs. 1,55,438 in the preceding year.

12. **Drainage.**—Out of the total capital expenditure of Rs. 2,60,529 under this head, Dacca alone contributed Rs. 2,15,786, the major portion of which was on account of its sewerage scheme. The initial portion of the Dacca sewerage, to which Government made a total grant of more than Rs. 22 lakhs, was completed and in full operation during the year. The outfall works continued to be under the control of the Public Health Department, the municipality paying the cost of the pumping. The system worked without a hitch, no blocking of the sewers occurred and there are signs that the advantages of the water-carriage system are beginning to be realised by the better class inhabitants of Dacca. The public latrines and urinals are an immense sanitary improvement and the dumping of night-soil was carried on without any serious nuisance. At the sewage farm excellent crops were grown, especially sugarcane, guinea grass and jute. About three quarters of the total length of sewers of the Titagarh Sewerage system were completed during the year. The sewerage scheme of the Bhatpara Municipality was under the consideration of Government. The alterations to the detritus tank and reconstruction of the roof over the septic tanks at Kurseong were completed and the Chairman of the Municipality remarks that the system is working satisfactorily.

Minor drainage works were also carried out in several other towns. These are generally confined to construction of, and repairs to, culverts, etc.

13. **Public Health.**—As in the previous year, almost all the municipalities took steps to improve sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and *dobas* and by

removing undergrowth and obnoxious vegetation. In Bansberia Municipality several unsightly and jungle-covered plots of land in Ward No. III were cleared and levelled by the Ganges Manufacturing Company for their mills. This had a salutary effect on the sanitation and public health of the town. More than half of the area of the Champdany Municipality was cleared of jungle by the Angus Company. The Ram Prosad Sanmilani in Halisahar and the "Tamralipta Sanskar Samity" in Tamluk co-operated with the municipalities in clearing undergrowth. The latter also removed weeds from insanitary tanks. In Kanchrapara borrow pits on either side of the rail lines were filled up with rubbish and street sweepings. On the other hand, the Municipal Commissioners of Kalna do not seem to be in earnest in clearing jungle when they desist on the ground that the owners of land are either very poor or have left the town. Jessore alone issued several hundred notices for clearance of undergrowth and Nator and Rajshahi issued 260 and 253 respectively. While the Commissioners of certain municipalities are anxious to see their towns cleaned of rank vegetation, the majority of them are not really in earnest. The measures taken by the latter are as a rule spasmodic and ineffectual. The Minister desires to invite the attention of all municipalities to the following remarks made by Mr. Marr, Commissioner of the Rajshahi Division:—

"* * * * ; unless and until every householder gets the idea into his head that he should convert the surroundings of his house into a flower, vegetable and fruit garden, there will be no real abatement of the evil of rank vegetation."

Preventive measures were taken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed, tanks were reserved and special doctors appointed, where necessary. Cholera and small-pox broke out in several municipalities. People were warned against using the water of suspected tanks and wells, and advised to use boiled water; unwholesome food was kept out of the municipal market and inoculation with cholera vaccine was resorted to in some towns. In certain cases the Director of Public Health arranged for regular supply of lymph and anti-cholera vaccine and also deputed qualified doctors. The local Health Committee in Serampore co-operated with the municipality to check the spread of cholera. Free vaccination was provided by many municipalities and effective measures were taken to secure the vaccination and revaccination of children. Vaccination depots were opened and permanent vaccinators were employed by some municipalities for the purpose.

Malaria and kala-azar were prevalent in some municipalities. It is reported that some anti-malarial and kala-azar societies did useful work in co-operation with municipalities in combating these diseases. Quinine and cinchona febrifuge were freely distributed by many municipalities. The health of the towns of Dinajpur and Jalpaiguri was very unsatisfactory. A general malarial survey is in progress in the former town. Anti-malarial work on scientific lines was carried out by the Birnagar Palli Mandali. In Berhampore a health committee was formed for combating malaria and kala-azar. The three municipal kala-azar centres at Dacca are doing useful work. North Dum Dum, South Dum-Dum and Jamalpur also opened centres for treatment of kala-azar.

Increasing interest was displayed by some municipalities in examining foodstuffs offered for sale to the public. In Dacca for instance, 329 samples of different kinds of foodstuffs were sent up for analysis, of which nearly 52 per cent. was found to be adulterated. Prosecutions under the Bengal Food Adulteration Act were instituted in 151 cases of which 88 ended in conviction.

Measures were taken by certain municipalities to eradicate water-hyacinth. Thus, notices were issued by Baranagar, South Dum-Dum and Rajshahi upon the owners of tanks and insanitary pits for the eradication of water-hyacinth and they were complied with. Water-hyacinth has been a source of permanent nuisance within the Nator Municipality. The two branches of the Nator Raj, who are the owners of large tanks in the town, placed funds at the disposal of the Municipality for the purpose of clearing their tanks. In English Bazar water-hyacinth was cleared from two tanks after the owners had been prosecuted. The Bagjola *khal* was

cleared of water-hyacinth by Government in the Irrigation Department. A joint conference of the municipal and the Eastern Bengal Railway authorities is considering the question of eradicating the pest from the pits and low-lands by the side of railway lines.

14. **Public Works.**—The total expenditure under the head fell from Rs. 11,39,602 to Rs. 10,87, 101. The decrease was noticeable under the sub-head "Roads". Dacca alone was responsible for Rs. 39,787. The decrease in Dacca is paid to have been chiefly due to the fact that about half of the road repair work could not be undertaken on account of financial stringency caused by non-realisation of taxes. The percentage of outlay on public works to the total expenditure varied from 3·4 in Rishra-Konnagar to 61·1 in Debhatta.

The total length of metalled roads maintained by municipalities was 1,306 miles and that of unmetalled roads 1,565 miles. As is to be expected, the mileage of metalled roads is largest (72) in Howrah while Krishnagar has the greatest mileage of unmetalled roads (77).

The Bengal Motor Vehicles Tax Bill referred to in the previous years' resolution, by which it was proposed to take power for local bodies to levy a reasonable tax on motor traffic was, after introduction, referred to a Select Committee. The majority of the Committee were of opinion that a system of provincial taxation should be introduced instead of that proposed in the Bill. Government have accepted this recommendation and decided to undertake a measure authorizing Government to levy a tax on motor vehicles, the income derived therefrom being expended in the form of grants to local bodies to assist them in maintaining or improving communications. The yield of the tax is likely to be small and unless some other means of increasing the resources at the disposal of local bodies can be found no general improvement of roads either in rural or in urban areas can be expected.

15. **Loans.**—Loans amounting to Rs. 1,16,500 were granted from provincial revenues to eight municipalities, *viz.* Suri (Rs. 19,000), Krishnagar (Rs. 25,000), Barisal (Rs. 25,000), Patuakhali (Rs. 11,000), Noakhali (Rs. 6,000), Jalpaiguri (Rs. 15,000) and Bajitpur (Rs. 500).

The Raniganj Municipality having failed to pay the first two instalments towards the repayment of the loan of Rs. 50,000 granted for water-works, the original loan was converted into a loan of Rs. 58,300. Howrah borrowed a sum of Rs. 1,50,000 for the improvement of water-supply from its own lighting fund on condition that the latter should be reimbursed in five years. Altogether 43 municipalities were in debt to Government, their total liabilities amounting to nearly Rs. 35 lakhs. The private loan of Rs. 3,000 taken by the Santipur Municipality to pay the conservancy staff which went on strike for non-payment of wages was fully repaid. Brahmanbaria also liquidated its loan of Rs. 6,000 in full.

16. **Audit of Accounts and Embezzlement.**—The accounts of almost all the municipalities were audited. There is a tendency on the part of local bodies to treat audit with indifference. Under existing orders audit notes should be returned to the Examiner of Local Accounts within three months of receipt, but it appears from the Examiner's report that in nine instances the replies were received after a year and in 77 cases after six months. Such delay greatly diminishes the value of the audit.

Delay is not the only symptom of the meagre attention paid to audit notes. Replies are often incomplete and inaccurate or evasive; and very often nothing is done between two periods of audit. As a result of this, it becomes necessary to carry forward from year to year various petty objections which could have been settled straight off by prompter action.

The suggestion made by the Examiner that prompt and proper disposal of audit notes should constitute an important factor in the consideration of local bodies' applications for grants, loans and other financial help from provincial revenues has the entire approval of Government, and the Minister proposes, to take this point into consideration when such applications are received. He hopes however, that in future full and prompt attention will be paid to audit reports and that there will consequently be no occasion to refuse applications for financial help.

Embezzlements or misappropriation of municipal money occurred in Katwa, Hooghly-Chinsura, Bally, Mymensingh, Maheshpur and Santipur. The offenders in all these cases were dismissed from service and prosecutions were started against them except in Santipur where the case of misappropriation by the collecting sarkar was under enquiry. In Bally and Mymensingh the culprits were sentenced to rigorous imprisonment, while in Katwa the Tax Daroga, who was one of the accused, was acquitted by the Sessions Judge.

The Tax Daroga of the Baidyabati Municipality was suspected by the auditor of having misappropriated municipal money and of having committed fraud in connection with the cart registration tickets. The matter was enquired into by a committee of 3 Commissioners, who came to the conclusion that there was no case of misappropriation although there were a few cases of irregularities committed by the Tax Daroga. The services of the Tax Daroga were dispensed with by the municipality. Government agree with the Divisional Commissioner that the matter should have been investigated by the police instead of by a committee.

Generally speaking, there is a great reluctance on the part of the Municipal Commissioners to institute prosecutions against their servants who misappropriate public money. Government are of opinion that it is not sufficient for the Municipal Commissioners to punish the delinquent by dismissal or to rest satisfied with the recovery of the sums misappropriated. They should remember that they are the custodians of the ratepayers' money and no personal considerations should deter them from placing offenders on trial leaving it to the court to take extenuating circumstances, if any, into view. Embezzlements are likely to continue and increase if it is known that prosecution is not likely to follow exposure.

At the same time it is most important that the municipal executive should not, by lack of supervision and neglect of the account rules, place temptation in their servants' way.

17. **General Remarks.**—*Burdwan Division.*—As regards the municipal administration in the District of Burdwan the Commissioner of the Division observes:—

> There is a fair amount of vitality in the municipalities in Burdwan district. There are the usual defects of inequitable assessment and somewhat dilatory realisation, but work is being done. More work to improve sanitation might well be done in Katwa and Kalna, if the Chairman and Vice-Chairman were not so painfully convinced of the difficulties in their way. More initiative is needed, but the fear of interfering with vested interests or of endangering popularity stands in the way as in all municipalities.

The improvement of the water-works and construction of more masonry drains are the two principal wants in the Burdwan town. The new oil engines having been erected, the pressure of water has increased, but as the water mains date from 1884 their capacity is not sufficient to meet the pressure of the new engines. It is apprehended that they may break down from the increased pressure.

The condition of the roads in Katwa is as bad as before and the arrangement of street lighting is also not satisfactory. The condition of the roads in Raniganj is fair.

The administration of none of the three municipalities in the district of Bankura is satisfactory. The condition of roads, latrines and drains during the year under review was almost as bad as it was last year. The District Magistrate reports that this was partly due to the shortage of funds, but even more to laxity of supervision on the part of the authorities in power who show no effective desire for improvement or progress.

The Magistrate of Midnapore says that, as in the previous year, the best administered municipalities were those of Tamluk and Ghatal and that the smaller municipalities lived their usual poverty stricken hand-to-mouth existence.

The largest and most important municipalities in the district of Hooghly are Hooghly-Chinsura and Serampore. The financial conditions of both these municipalities is deplorable, that of Hooghly Chinsura dangerously approximating to bankruptcy as the outstanding liabilities are Rs. 44,222 and the closing balance Rs. 10,067. The outstanding liabilities of Serampore also amounted to Rs. 22,344 against the closing balance of Rs. 37,545. The supersession of the Hooghly-Chinsura Municipality was contemplated owing to the crisis about

the water-works, but Government have decided to give the new Board an opportunity to bring about reforms.

The Magistrate of the district observes :—

It is premature to comment on the administration of the new board of the Hooghly-Chinsura and Serampore Municipalities, but up till now it has not been marked by any noticeable improvement. In Hooghly-Chinsura at least, it is only fair to repeat, the new board inherited an unenviable legacy. Both the municipalities are bad and schemes of improvement are being held up for want of funds, and justifiable complaints still continue about the water supply and the electric lighting in the Hooghly-Chinsura Municipality.

Mr. Cook, the Commissioner, considers that many municipalities in the Division have ceased to satisfy the conditions of section 10 of the Bengal Municipal Act. In such places a union board would probably give the residents all the amenities which they can afford, but although the law permits Government to abolish these municipalities where the conditions of section 10 are no longer fulfilled, it does not provide for the immediate substitution of union board. This point will have the Minister's attention when the Village Self-Government Act is amended.

The attitude of the Municipal Commissioners in Rishra-Konnagar towards the mill authorities was positively hostile to the great disadvantage of the rate-payers. The Municipal Commissioners of Bally were indifferent in improving the collection with the result that road repairs and street lighting were badly neglected

Presidency Division.—The Magistrate of the 24-Parganas observes that the main features of municipal administration in his district remain much the same with a tendency to improvement on the whole. The average incidence of taxation per head of population rose from Rs 1-11-9 to Rs. 1-14-6. Collection also improved, the percentage rising from 92·9 to 97·7 and consequently the outstanding balances decreased. More attention was given to and more money spent on public health and water-supply. A successful health exhibition was organized at Baranagar. With a loan of Rs. 25,000 from Government the Municipal Commissioners of Krishnagar improved their roads considerably, stone being substituted for *jhama*. The water-supply problem of Birnagar was solved by the local Palli Mandali in co-operation with the municipality, while in Nabadwip and Santipur water-supply was allowed to look after itself. At Nabadwip a new Board has been formed and it is reported that it is taking steps for the general improvement of the town as well as its water-supply. "The administration of Santipur on the other hand has only this to be said for it—that the Commissioners struggled through the year without throwing up altogether At one time the pay of the staff was so much in arrears that the Subdivisional Officer of Ranaghat had to borrow Rs. 3,000 from a rate-payer to put an end to a strike of the conservancy establishment on the ground of non-payment of wages and to give the Commissioners an opportunity to carry on."

Kushtia continues to have a forward policy and is run in a business-like way.

The conservancy arrangements at Ranaghat are quite fair and its roads are not bad. Chakdah, Kumarkhali and Meherpur are nothing more than overgrown villages as far as the amenities of the modern town life are concerned.

The municipal administration of the district of Murshidabad was fairly managed as far as municipal funds permitted The health of the municipal towns was generally good.

In Berhampore the Mehtars' Co-operative Society which was started in 1921 has been a source of great relief to individual members in times of need. The Municipal Employees' Association also is doing useful work.

The collection of rates and taxes in Jessore is as disappointing and unsatisfactory as ever A particularly regrettable feature is the fact that some of the Municipal Commissioners themselves, including the Chairman, were in arrears. To meet its ordinary expenditure, a considerable proportion of the loan taken from Government for improvement of water-supply was improperly diverted.

In Khulna the condition of many of the roadside drains, especially after rain, and of the road and drain through the *hat* is wretched.

The financial affairs of the Satkhira Municipality were in a hopeless condition owing to bad management by the

Municipal Commissioners. The Divisional Commissioner after inspecting the municipality directed the formation of a small sub-committee to take the collections in hand and to submit a special weekly progress report.

The Commissioner of the Presidency Division makes the following remarks :—

The standard of administration of the municipalities continues with a slight tendency towards improvement. The average incidence of taxation per head of population rose from Re. 1-14-2 to Rs. 2-0-6 and there was an advance in the percentage of collection. A few well-managed municipalities in the industrial areas, with generous contributions from the local mills and Government have been able to undertake schemes of scientific sewerage and water supply. Many municipalities have improved and increased their water-supply by sinking tube wells. On the other hand, the outstanding balances in many municipalities were very large. Generally there was disinclination to take coercive measures, and the fact that in some municipalities the Commissioners themselves were in arrears is to be regretted. The administration of the Nabadwip and Santipur Municipalities was inefficient and was marred by continued party faction which is an unpleasant feature of public life in the Province. Signs of such faction were noticeable in Azimganj and Kotchandpur also. The municipalities with small incomes, such as Chakdah, Kumarkhali, Mahespur and Debhatta, have not been able to do much to provide amenities to their constituents, they should pay more attention to the improvement of conservancy and drainage and to the supply of good drinking water.

The condition of roads in many of the municipalities was generally bad, but more attention was given to it in some cases. **

* * * * * *

Increased attention was paid to the improvement of public health and specially to check the spread of epidemic diseases. **

* * * * * *

Dacca Division.—Mr. Philpot, Magistrate of Dacca, makes the following remarks on the working of the Dacca Municipality :—

It is most regrettable that the campaign against the assessment should still continue and that the municipality should now be faced with the prospect of litigation even before the Privy Council. If those who are inclined to criticise the municipality severely for shortcomings which are due to inadequate funds, would use their influence to make people realize that it is suicidal for them to support such a campaign, prospects would be brighter.

The figures for the year under report do not show any very marked improvement in collection of taxes, as the result of the campaign being carried on energetically had only begun to be felt towards the close of the year. The prospects for the present year in this respect are encouraging.

The Magistrate of Mymensingh reports that the administration of the municipalities of Sherpur, Jamalpur and Tangail has generally improved owing to the exceptional energy and devotion to duties shown by the Chairman.

The municipal administration of Faridpur, Madaripur and Rajbari has on the whole advanced appreciably although there is a certain amount of party faction in all these places. The Magistrate of Bakarganj gives credit to the Municipal commissioners of Pirojpur for seriously tackling their financial position and reducing their outstanding balances. In Barisal, on the other hand, instead of any reduction being effected the balance of uncollected taxes rose from Rs. 25,763 to 28,000 and this in spite of a lamentably high figure of remission (Rs. 6,339).

Chittagong Division.—The Commissioner of the Division observes :—

None of the municipalities in this Division showed any marked advance during the year. The financial conditions of the Chittagong Municipality continues to be bad and has led the Commissioners to seek relief by suggesting the provincialization of one of the principal roads in the town. The Commissioners have not been able to realise fully their heavy arrears.

In Comilla, the Commissioners concentrated all their energy on the completion of the water works with the result that their activities in other directions were extremely limited. Their roads and drains are unsatisfactory and require more attention.

The Noakhali Municipality is in a deplorable condition. Their roads are bad, their drains worse and their water-supply worst of all. It is impossible for them to effect any improvement until they have overhauled the assessment of the entire municipal area.

The smaller municipalities are doing their best with the small resources at their disposal, but they can do more if they would consent to enhance their taxes which are at present extremely low. Their disinclination in this respect is greater than in the municipalities at the headquarters of the districts.

Rajshahi Division.—The administration of the Rajshahi Municipality during the year was at first marred by party strife but since the election of a new executive this hindrance has been less in evidence. The biggest problems in this municipality are those of water-supply and drainage. The financial condition of the Bogra Municipality is far from

satisfactory and the deficit balance of the general fund has not yet been made up. The financial position of the Pabna Municipality was even worse than it was in the preceding year. The collecting agency in Sirajganj requires more careful supervision as the outstanding balance has increased from Rs. 16,781 to Rs. 18,266. The Magistrate of Malda reports that the working of all three municipalities in the district is far from satisfactory. None of the municipalities use the powers entrusted to them or enforce the prompt payment of taxes.

The Commissioner of the Division observes :—

Although none of the municipalities can legitimately claim credit for any special advance during the year, I think that on the whole there has been an attempt to improve existing conditions and that most of the municipalities can look back with some satisfaction on the year's work. Even in the Pabna and Malda districts, where the municipal administration has been least satisfactory, there has, I think, been some effort at improvement. None of the plains municipalities, however, can hope to proceed far on the path of progress unless they materially increase their income by revision of assessment and by the substitution of the tax on holdings for the tax on persons where that has not been done. A bolder loan policy is also called for to secure, partly at the expense of posterity, permanent improvements such as water-supply and drainage schemes or even electric lights and fans.

Darjeeling Municipality is conducted efficiently on modern lines and Kurseong follows in its footsteps as far as its smaller resources allow.

Conclusion.—The Minister observes that while the position of a Municipal Commissioner is eagerly sought there is not in general a similar keenness to work steadily for the public welfare. Excessive party feeling, bad collection, unwillingness to adopt stringent measures for the realization of municipal demands with readiness to remit taxes, indifference to audit reports, and lax supervision leading to embezzlements are unfortunately common characteristics of municipal administration. There is, however, a brighter side to the picture. Not only are many of the mill towns well administered, but there is also much zeal and public spirit in some of the smaller municipalities of a semi-rural type like Kushtia, Birnagar, and Nalchiti.

Distinct progress has been made in the improvement of urban sanitation and water-supply, and the way in which certain municipalities have tackled the problem of providing primary education for all boys of school-going age is gratifying.

The average incidence of taxation is extremely low, *viz.*, Rs. 3-1-5 per head of population. It is true that the general average is kept down by the inclusion in the list of municipalities of many places that are not urban aggregates at all but mere groups of villages indistinguishable from similar groups in the cess-paying area. It may be further admitted that municipal incomes are rising and that there is on the whole increased readiness to find the money required for local improvements.

There is still, however, a general disinclination to face the fact that improved services and better conditions must be paid for—Dacca is an instance—and that money wisely spent on the betterment of sanitary conditions, on education, on medical relief and on communications will give a return not only in greater happiness and comfort but in increased prosperity also. No marked improvement can be expected until it is realized that it is profitable to the individual—in the pecuniary sense as well as otherwise—to elect men of public spirit to the municipal board and to entrust them with adequate funds.

The names of the following Chairmen, Vice-Chairmen and Municipal Commissioners have been brought to the notice of Government on account of the good work done by them and the Government of Bengal (Ministry of Local Self-Government) desire to express their appreciation of the public spirit shown by these gentlemen :—

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 9th March 1927.

Summary.—The week was practically rainless except for scattered showers in some North Bengal districts. Preparation of lands for jute and other autumn crops is progressing favourably and sowings continue in East and North Bengal districts. Harvesting of oilseed crops is almost completed and that of other spring crops continue. Outlook of standing crops is generally promising. The average price of common rice for the province has fallen by about 0·14 per cent. as compared with that of the previous week.

CORPORATION OF CALCUTTA.

NOTICE.

In compliance with the provisions of clause (2) of Rule 9 of Schedule XVIII of the Calcutta Municipal Act, 1923, it is hereby notified for general information that in modification of the order of the Corporation made under section 448, Act III of 1899, on the 5th December 1917, and published in the *Calcutta Gazette* of the 12th December 1917 (Part IB, page 300), the Corporation of Calcutta at their meeting of the 15th September 1926, passed under Rule 9 of Schedule XVIII, Act III of 1923, a general order applicable to the whole of the area within their jurisdiction, prohibiting the sinking of tube-wells except on the following conditions :—

(1) No person shall sink a tube-well in any portion of Calcutta until the site has been approved by the Health Officer to the Corporation provided that if permission is neither granted nor refused within one month from the date of receipt of the application it shall be assumed that the application has been sanctioned.

(2) No tube-well shall be sunk by any person or firm other than one duly licensed by the Corporation for the purpose.

(3) Every application for permission to sink a tube-well shall be submitted in duplicate and shall contain particulars as to the size, capacity and depth of the well, and the purpose for which the water will be used. It shall be accompanied by a plan in duplicate, drawn to a scale of 50 feet to the inch, showing the position of the tube-well and the position of every building, tank or other structure within 50 feet and a detailed specification giving full particulars, specially of the method which the applicant proposes to adopt to prevent contamination of the well by the percolation of subsoil.

(4) Every tube-well shall be sunk to a depth sufficient to allow the whole of its length of strainer embedded in a layer of sand below the third layer of impervious clay.

(5) On completion of the tube-well, and before the casing pipe is withdrawn, the space between the well pipe and the bore hole shall be properly filled up with cement.

(6) Every tube-well shall be provided with an impervious platform at ground level sloping away from the tube, and of a radius of at least 5 feet.

(7) Every person sinking a tube-well shall keep a record and sample of the different layers he taps and submit the same to the Executive Engineer, Water-works. The records and samples so furnished shall be treated as confidential.

(8) No tube-well shall be brought to use until the Health Officer of the Corporation has examined the water and certified that it is fit for use.

(9) Any tube-well the water from which is, in the opinion of the Health Officer of the Corporation, deleterious to health, shall be immediately closed, on receipt of a notice to that effect from the Health Officer under Schedule XVIII, within such time as may be prescribed in the said notice.

(10) Every tube-well shall be open to inspection by the Health Officer of the Corporation, the Executive Engineer, Water-works, and such other persons as may be authorised in this behalf between the hours of sunrise and sunset.

Any infringements of the above rules will make the owner of the well or the person in charge or permitting the use of the well liable to punishment under Clause 9 of Schedule XVIII.

Orders and Notifications by the Governor of Bengal, the Government of Bengal, the High Court, Government Treasury, etc.

ORDERS BY HIS EXCELLENCY THE GOVERNOR OF BENGAL.

NOTIFICATIONS.

No. 3791A.—The 19th March 1927.—The following notification is published in supersession of notification No. 3251A., dated 1st March 1927 :—

Whereas the validity of the election of Babu Charu Chandra Sinha by the Howrah Municipal (non-Muhammadan) constituency as a member of the Bengal Legislative Council has been brought in question by an election petition duly presented by Babu Khagendra Nath Ganguli, under the provisions of Part VII of the Bengal Electoral Rules ; and

Whereas in accordance with the provisions of rule 45 of the said Electoral Rules, the Commissioners appointed for the trial of the said petition have duly submitted their report to the Governor ; now, therefore, in pursuance of sub-rule (8) of rule 45 of the Bengal Electoral Rules and in accordance with the report of the said Commissioners, the Governor is pleased hereby—

(1) to declare, in accordance with the report of the Commissioners, the election of the respondent Babu Charu Chandra Sinha as a member of the Bengal Legislative Council for the Howrah Municipal (non-Muhammadan) constituency to be void,

(2) to direct that the said respondent Babu Charu Chandra Sinha shall pay to the petitioner Babu Khagendra Nath Ganguli the sum of Rs. 51 as costs, and

(3) to publish the said report.

W. D. R. PRENTICE,
Chief Secretary to the Government of Bengal (offg.).

In the Court of the Commissioners appointed under rule 36 (2) (a) of the Bengal Electoral Rules by Government notification No. 24300A., dated the 10th December 1926.

In the matter of Babu Khagendra Nath Ganguli, petitioner,

versus

Babu Charu Chandra Sinha, respondent.

For the petitioner—Mr. S. C. Bose, Counsel, and others.

For the respondent—Mr. N. Sircar, Counsel, and others.

Report.

Babu Khagendra Nath Ganguli was a candidate for election to the Bengal Legislative Council from the Howrah Municipal non-Muhammadan constituency. Babu Charu Chandra Sinha was his only rival candidate. Babu Khagendra Nath filed four nomination papers subscribed by him and four sets of different proposers and seconders. The Returning Officer, on the objection of the respondent, Babu Charu Chandra Sinha, rejected the nomination papers upon scrutiny. From the reasons given by the Returning Officer for rejecting the nomination papers it appears that the Returning Officer did not have any doubt as regards the identity or eligibility of the petitioner ; but it is clear that the only ground on which he rejected the nomination papers was that they did not specify the sex division of the electoral roll in which the names of the petitioner and his several proposers and seconders were included. For this omission the Returning Officer was of the opinion that the nomination papers did not contain a complete description of the subdivision as required by the rules. Against the orders of the Returning Officer Babu Khagendra Nath has filed this petition and he prays that the said orders may be declared wrong and unsustainable, that his nomination should be accepted, that the respondent's election should be declared void, and that a fresh election should be held from the constituency. He also asks for the costs of the proceedings.

The respondent filed a written statement which raised the following issues for determination :—

(1) Does the "subdivision" referred to in Schedule III refer to subdivision into electoral areas ? or does it refer to subdivision according to sex as well ? Do the nomination papers give a description of the subdivision as required by the rules ?

(2) Were the nomination papers of the petitioner properly rejected on the grounds mentioned in the order of the Returning Officer, dated the 8th October 1926 ?

(3) Was the electoral roll of the Howrah Municipal non-Muhammadan constituency for the Bengal Legislative Council, in so far as it contained the heading "male electors", prepared in accordance with the regulations made and forms prescribed by the Local Government ? If not, what is the effect thereof ?

(4) Is the respondent entitled to raise the points urged by him in paragraph 6 of the written statement ? If so, are the nomination papers of the petitioner liable to be rejected on any of those grounds ?

(5) To what relief, if any, is the petitioner entitled ?

The fourth issue was not pressed, so we are called upon to answer the questions in the other issues framed.

The first question is whether the word "subdivision" in the foot-note of Schedule III of the Electoral Rules refers to subdivision into wards or different areas, or to such subdivision as well as subdivision into male and female voters. The foot-note under the Schedule appears, for the first time, in 1923. At that time, so far as we can see, there was only one subdivision, namely, into different areas or wards, for at that time females were disqualified from being registered as voters. So there cannot be any doubt that in 1923 "subdivision" referred to territorial subdivision and not to sex subdivision. In 1925, August, sex disqualification was removed by Legislature. On 8th February 1926 we find the local Government by its letters Nos. 1124-28 A., directed that a roll of women voters should be prepared separately and in the form prescribed as for male voters, except that in column No. 3 the name of the husband primarily (or the name of the father in the case of unmarried women) should be written instead of the name of the

father as in all cases of male voters. Thus in 1926 there came to be in each municipal area one electoral roll for males and another for females, and each such roll came to be sub-divided into as many separate rolls according to area as there are wards in it; in other words, in 1926 the electoral roll of each municipality came to be sub-divided according to more than one principle of division.

On 8th February 1926 the local Government under rule 9 (4) issued letters Nos. 1124-28A., with copies of instructions for the President Panchayets and Chairmen of Rural Municipalities, and with prescribed forms of roll—Exhibit A in the case. The Government also issued letters Nos. 1947-49 A., forwarding copies of instructions for the guidance of the Chairmen of Urban Municipalities, in the preparation of the rolls, observing therein that the general principles underlying were the same as in letters Nos. 1124-28 A., noted above. To letters Nos. 1947-49 A., were appended printed slips of heading "*which were to be pasted on the head of each copy of the electoral rolls.*" The heading on the slips meant for the list of female voters runs thus, "Non-Muhammadan Electorate (female electors)"; while the heading on the slips meant for the list of male voters runs thus, "Non-Muhammadan Electorate". It will be seen in the latter case no such words as "male electors" were added as in the case of female voters. From the electoral roll of the Howrah Municipal non-Muhammadan constituency published we find that the Chairman of the Howrah Municipality not only put "female voters" or "female electors" in the case of female rolls as directed, but in the case of the male lists he also inserted "male electors", "male voters" or words to such effect. This, in our opinion, is not enjoined by the Government in the instructions issued to the Chairmen of the Urban Municipalities, and this is not required by and not to be found in the printed forms appended to the instructions issued by the Government. The petitioner and his proposers and seconders subscribed their names, gave the number of the ward, as well as their serial number correctly and completely; what they did not do, it was objected by the respondent, and the Returning Officer upheld the objection, was they did not mention the words "male electors" after their roll numbers in the nomination papers. According to the Government instructions and the printed headings circulated, upon the appended form of the heading of the electorate meant for male electors requiring no qualification, *e.g.*, "male electors", the description given by the candidate, the proposers and the seconders would be adequate. According to the instructions and the form, in our opinion, the absence of any qualifying words would mean and means "male electors". Thus if the Chairman of the Howrah Municipality had followed the instructions issued by the Government and *pasted the slips prescribed at the head of each copy of the roll*, the nomination papers, as they are, would be complete and unexceptionable. It is only because the words "male electors" are printed in the heading of the male lists of the municipality in question that the Returning Officer held the nomination papers were defective. That is why the question was discussed whether the Chairman of the municipality had any legal, that is to say, statutory authority to make the addition, though the Government instructions did not direct the addition and the specimen forms did not prescribe the same. Apparently the Chairman had no statutory authority, as according to the rules he is to prepare the roll according to the instructions and forms sent to him by the local Government. It is contended for the respondent that the petitioner not having objected to the addition of the words "male electors" under rule 9 (6) he is estopped from questioning it now. Rule 9 (6) read with Regulation XIX shews that an objection contemplated under the rule is different from an objection of this nature. Besides, there can be no question of estoppel in a case like this where statutory requirements are disobeyed with full knowledge by the officers entrusted with the discharge of public duties. The addition of the words "male voters" "male electors" or "males" being not covered by the instructions and the form, is of no consequence. Accordingly in our judgment the nomination papers in question when they did not expressly quote the words "female electors" or "female voters" must be taken to refer to subdivision and numbers in the male lists and is, therefore, complete and correct according to the instructions issued by the Government and forms prescribed. Had it been the case that the candidate was proposed and seconded by female voters and in giving the description of their subdivision wards and serial numbers were given, but the words "female electors" were omitted then, with some show of reason, it could be contended that the nomination papers did not give a complete description of the subdivision according to prescribed rules and were defective.

The object of requiring that the name of the subdivision within which electors are numbered should be given is that the identity and eligibility of the candidate, proposer and seconder could be discovered in case of objection. It is pointed out in this case that in the case of several nominations the serial numbers of the proposers and seconders are higher than the number of female voters in the corresponding ward or territorial subdivision. Thus in Ward No. V there are only 221 female voters in the list, whereas the proposers and seconders in the nomination papers marked 12 and 13 are 375, 347, 359 and 367. Thus there could be no doubt that the numbers referred to those in the male list. It was argued by the respondent that whether the establishment of identity, etc., is the object of the rule or not is not the point. There may be and are other reasons for the rule, and the rule being there the Returning Officer cannot go beyond the nomination paper. A number of rulings (English and Indian) were cited before us. We feel considerable hesitation in applying the rulings of English Courts to Indian cases; one reason for such hesitation being that a Returning Officer in England is not competent to investigate into the eligibility of the candidate. He only decides on the validity of an

objection made to a nomination paper. But under the rules framed under the Government of India Act a Returning Officer has powers to decide both on the validity of the nomination papers as also to the identity and eligibility of the candidate. The proceedings before the latter officer, therefore, are less summary than those before the former. So, in our opinion, there are reasons why the English Election Courts have been so strict. Besides, we find in England certain defects have been made curable and certain defects incurable. There being such hard and fast distinction in the majority of cases cited we find that the learned Judges upheld the objections "with considerable reluctance but with no hesitation". In India we do not find any settled law on the point. In one of the latest cases, the report of which is published in Part I of the *Bihar and Orissa Gazette* of the 19th of January last, a point of view has been adopted which is in accordance with ours. Certainly in other Indian cases, as for example, in the West Berar case, the Raipur case reported in Hammond, Volume II, pages 232-234, a different standpoint has been taken; but it will be seen in the majority of the decided Indian cases the Courts always considered whether the defect was of a "substantial character." Thus what is a fatal defect is largely a question of fact in India and not strictly a point of law.

To sum up, our conclusions are, the word "subdivision" in the foot-note of Schedule III at present refers to area subdivision as well as to sex subdivision; that the nomination papers in question simply giving roll numbers and the ward numbers not only indicated subdivision as to area but, as they stand, they indicate subdivision as to sex as required by the rules—thus for the above reasons the nomination papers in question did completely state the subdivisions as required by the foot-note under the rules; that in as much as they were not defective these nomination papers were not properly rejected. Further the electoral roll published of the municipality in question was, in our opinion, not prepared according to the rules—that is to say, instructions issued by the Government, but that the addition of the words "male electors," "male voters" or "males" in the male roll is a mere surplusage and of no consequence.

The result there is that, in our opinion, the petitioner is entitled to succeed and that it should be declared that his nomination papers were improperly rejected by the Returning Officer, that the respondent has not been duly elected, and that the nomination papers of the petitioner should be accepted and the election allowed to proceed according to law.

We assess the costs of this hearing at Rs. 51 and recommend that the respondent do pay the same to the petitioner.

RESOLUTION.

CUSTOMS.

The 12th March 1927.

No. 18.—For the purposes of the notification of the Government of India in this Department No. 17—Customs, dated the 12th March 1927, the following instructions issued by the Government of India appointing the authorities and also laying down the conditions for the grant of export authorisations referred to in the notification are published for general information :—

Raw Opium.

(1) The authorities competent to grant export authorisations shall be the Government of Bengal and the Collector of Customs, Bombay, in the case of exports from the ports of Calcutta and Bombay, respectively.

(2) Export authorisations shall not be granted without special permission in each case previously obtained from the Government of India unless the opium is exported—

(*i*) on behalf of the Government of India ; and

(*ii*) to a country which has ratified the International Opium Convention of 1912, and an import certificate in the annexed form from the country of destination has been produced.

Opium derivatives, cocaine and Indian hemp.

(3) The authorities competent to grant export authorisations shall be the Collectors of Customs at Calcutta, Bombay, Madras, Rangoon and Karachi.

(4) The export authorisations shall not be granted without special permission in each case previously obtained from the Government of India, unless the drugs are exported to a country which has ratified the International Opium Convention of 1912 and an import certificate in the annexed form from such country of destination has been produced. In the case of Indian hemp, the production of a special certificate issued by the Government of the importing country stating that the importation is approved for the purposes specified in the certificate and that the resin or preparation of hemp will not be re-exported, shall be required.

General.

(5) Export authorisations shall be issued in quadruplicate, one copy being retained for record, one being handed to the consignor so that it may accompany the consignment and one being despatched to the Government of the importing country (*see* clause 4 of Article 13, Dangerous Drugs Convention, 1925).

(6) Collectors of Customs shall forward the fourth copy of the export authorisation, without delay, to the local excise authorities. If any proposed consignment appears to the Collector of Customs to be of an unusual character, he shall consult the local excise authorities before granting the authorisation.

(7) The Government of Bengal shall forward the fourth copy of the export authorisation to the Collector of Customs, Calcutta.

UNIVERSITY OF DACCA.

Syllabuses—Session 1927-28.

FACULTIES OF ARTS AND SCIENCE.

DEPARTMENT OF MATHEMATICS.

I —ORDINARY B. A. AND B. Sc. DEGREES.

(Examinations to be held in 1929 and after.)

(Three Papers.)

Paper I.—Plane Trigonometry and Co-ordinate Geometry.
Paper II.—Differential and Integral Calculus and Differential Equations.
Paper III.—Hydrostatics and Astronomy.

Detailed Syllabus.

Co-ordinate Geometry—

A. Co-ordinate, distances between two points and other simple formulæ.

B. Straight lines—Equations, distance of a point from a given line, angle between two straight lines, bisectors of the angles between two straight lines, pairs of straight lines.

C. Circle—equations, tangents, normals, poles and polars. Condition of orthogonality of two circles.

D. Parabola—equation, tangents, normals, poles and polars.

E. Ellipse—equation, tangents, normals, poles and polars, auxiliary circle, eccentric angle, conjugate diameters, asymptotes.

F. Hyperbola—equation, tangents, normals, poles and polars, conjugate diameters, asymptotes.

Books recommended :—

Loney ... Co-ordinate Geometry.
Molony ... Analytical Geometry.

Trigonometry—

Simple properties of triangles and quadrilaterals. Inverse functions. Simple Trigonometrical equations. Demoivre's Theorem and simple applications, expansions of sine and cosine and applications. Exponential values of sines and cosines and properties of complex quantities and their logarithms ; Gregory's series and applications. Summation of simple trigonometrical series.

Books recommended :—

Todhunter ... Plane Trigonometry.
Loney ... Plane Trigonometry.

Differential Calculus—

1. Variables, constants, functions, characteristics of a function of one variable ; graphical representation o functions.

2. Definition of a f mit, notation, distinction between limit and value. Limits as $x \longrightarrow 0$, limits as $x \longrightarrow \infty$, limits as $x \longrightarrow a$. Simple examples of oscillating functions. Simple examples of continuous and discontinuous functions. (*Ref.* : *Hardy—Pure Mathematics, Chapter V.*)

3. General definition of the derived function. Geometrical and Physical illustrations. Differentiation of a sum, a product and a quotient. Differentiation of a function. Differentiation of standard forms. Differentiation of implicit functions. Partial differentiation. Euler's Theorem.

4. Successive derivatives. The *nth* derivatives of some particular functions. Successive derivatives of a product. Leibnitz's Theorem.

5. Expansions. Maclaurin's and Taylor's Theorems.

6. Undetermined forms.

7. Inferences from the sign of the derived function. Maximum and minimum values of functions of one variable. Points of inflexion.

8. Equations of tangent and normal. Cartesian subtangent, subnormal, etc., Polar co-ordinates, Angle between radius vector and tangent. Polar subtangent. Polar subnormal, etc. Pedal equation, pedal curves. Positive pedals and negative pedals.

9. Asymptotes of a curve in Cartesian co-ordinates.

10. Measure of curvature. Formulæ for the radius of curvature in Cartesian co-ordinates, in Polar co-ordinates, in terms of p and r. Curvature at origin.

Book recommended :—

Edwards ... Differential Calculus for Beginners.

Integral Calculus—

1. Integral. General integral. Definite and Indefinite integrals. General Laws obeyed by the integrating symbol. Standard forms. Simple extensions.
2. Methods of integration—

(a) Method of substitution.
(b) Method of integration by parts.
(c) Simple cases of the Method of reduction formulæ.
(d) Method of decomposition of rational fractions into partial fractions (Edward's Integral Calculus for Beginners, Chapter V).

3. Definite Integrals. Problem of areas. Definite integral defined as the limit of a sum. Fundamental theorem of the Integral Calculus. General properties of definite integrals. Simple cases where the function $f(x)$ or the limits of integration become infinite.
4. Definition of areas. Formulæ for an area in Cartesian and Polar co-ordinates. Areas of curves which can be easily traced. Formulæ for the length of an arc of a curve in Cartesian and Polar co-ordinates. Simple cases of rectification of curved lines. Simple cases of volumes and surfaces of revolution.
5. Differential equations. Formation of differential equations. Equations of the first order and first degree. Methods of solution. Variables separable. Linear equations of the first order. Homogeneous equations. Exact equations. Equations of first order but not of first degree. Linear differential equations with constant co-efficients with right-hand number equal to O.

Book recommended :

Edwards ... Integral Calculus for Beginners.

Hydrostatics—

Definitions. Nature and properties of fluid pressure. Density and specific gravity of a mixture. Determination of the pressure of a heavy liquid in simple cases. Centre of pressure. Conditions of equilibrium and stability of equilibrium of a floating body. Metacentre. Properties of elastic fluids and determination of pressure. Measurements of heights by barometers. Faulty barometers. Pressure of a mixture of gases. Determination of specific gravities Description of the barometers, the common pump, the force pump, the diving bell and the air pump (Smeaton's).

Book recommended :—

Loney ... Hydrostatics.

Astronomy—

Fundamental Definitions. The Celestial Sphere. The Earth. Latitude and Longitude. Rotation of the Earth. The Transit Instrument. Corrections for various Errors. The Meridian Circle. The Equatorial. Refraction. The Sun. Sun-spots. The motion of the planets. Parallax (Diurnal and Annual). Determination of the first point of Aries. Determination of the obliquity of the Ecliptic to the Equator. Precession, Nutation and Aberration. The Moon. Lunar and Solar Eclipses. Frequency of the Eclipses. Equation of time. Reduction of time. The Sun-dial. The Sextant. Determination of Latitude and Longitude by simple methods. The fixed stars.

Books recommended :

Mullick ... Astronomy.
Parker ... Ditto.

II.—HONOURS SCHOOL OF MATHEMATICS (B. A. AND B. Sc. DEGREES).

(Examinations to be held in 1930 and after.)

(Eight Papers on Mathematics.)

Paper I.—Higher Algebra and Theory of Equations.

Paper II.—Higher Plane Trigonometry, Spherical Trigonometry and Vectors.

Paper III.—Co-ordinate and Solid Geometry.

Paper IV.—Mathematical Analysis (Differential and Integral Calculus).

Paper V.—Mathematical Analysis (Differential Equations and Functions of a Complex Variable).

Paper VI.—Analytical Statics and Hydrostatics.

Paper VII.—Elementary Rigid Dynamics.

Paper VIII.—Dynamics of a Particle and Astronomy.

Subsidiary Subjects.

(*a*) *For the B. A. Degree.*

Any combination of two subjects allowed for the ordinary degree except the following combinations :—

(*i*) Philosophy and Economics.

(*ii*) Politics and Sanskrit or Persian or Urdu or Arabic or Islamic Studies.

The combination selected must be subject to the approval of the Head of the Department.

(*b*) *For the B. Sc. Degree.*

Physics and Chemistry.

Detailed Syllabuses.

Algebra—

1. Inequalities.
2. Infinite Series. Series of Real constant terms. General properties. Tests for convergence. Absolutely convergent series. Conditionally convergent series. Alternating series. Product of an infinite number of factors.
3. Continued fractions. Simple continued fractions.
4. Summation of series. Recurring series.
5. Determinants. General definition of a determinant. Properties of determinants. Multiplication of determinants. Reciprocal determinants. Solution of a system of Linear Equations.

Books recommended :—

1.	Higher Algebra ...	Hall and Knight.
2.	Higher Algebra ...	C. Smith.
3.	A Course in Pure Mathematics ...	G. H. Hardy. (Arts. 76-78, and Chapter VIII.)
4.	Mathematical Analysis, Vol. I ...	E. Goursat and Hedrick. (Chapter VIII.)

Theory of Equations—

1. General Properties ot Polynomials. Derived functions. Graphic representation of a Polynomial.
2. General Properties of Equations :—Theorems relating to the real roots of an equation. Existence of a root in the general equation. Imaginary roots. Theorem determining the number of roots of an equation. Equal roots. Descartes' Rule of Signs.
3. Relations between the roots and co-efficients of equations with application to symmetric functions of the roots.
4. Transformation of Equations :—Roots with signs changed. Roots multiplied by a given quantity. Reciprocal roots and reciprocal equations. To increase or diminish the roots by a given quantity. Homographic transformation. Equation of the squared differences of a cubic. Criterion of the nature of the roots of a cubic.
5. Solution of Reciprocal and Binomial Equations.
6. Algebraic solution of the Cubic and the Biquadratic. Equation of the squared differences of a biquadratic. Criterion of the nature of the roots of a biquadratic.
7. Properties of the derived functions. Graphic representation of the derived function. Rolle's Theorem. Determination of multiple roots.
8. Symmetric functions of the roots :—Newton's Theorem on the sums of powers of roots. Order and weight of symmetric functions. Homogeneous products.
9. Limits of the roots of equations.
10. Separation of the roots of an equation. Sturm's Theorem and application.
11. Solution of Numerical equations. Newton's method of divisors. Newton's method of approximation. Horner's method of solving numerical equations. Contraction of Horner's Process.

Book recommended :—

Burnside and Panton ... Theory of Equations, Vol. I.

Plane Trigonometry—

Same syllabus as for the Ordinary Degree. Fuller and more detailed study of the course will be expected.

Spherical Trigonometry—

1. Spherical triangles. Important geometrical properties.
2. Formulæ connecting the sides and angles of a spherical triangle.
3. Solution of right-angled and oblique-angled spherical triangles.

Book recommended :—

McLeland and Preston ... Spherical Trigonometry, Part I.

Vectors—

Addition and subtraction of vectors. Condition that three vectors terminate in the same line. Condition that the extremities of four vectors lie in a plane. Mean point. Formulæ relating to the product of two or more vectors. Differentiation of vectors. Line and surface integrals of vectors. Simple vector equations.

Book recommended :—

Coffin ... Vector Analysis.
Weatherburn ... Elementary Vector Analysis.

Conic Sections—

1. Co-ordinates :—Distance between two points, section-formulæ. Areas of a triangle and a quadrilateral in terms of the co-ordinates of angular points.

2. Straight line :—Special forms of the equations of a straight line. Angle between two straight lines. Distance of a point from a line. Angle bisectors. Homogeneous equations. Equation referred to oblique axes.

3. Change of axes :—Anharmonic or cross ratios. Involution.

4. The Circle :—Equation of a circle. Equation of tangent and normal at a given point. Pole and Polar. Orthogonal circles. Radical axis of two circles. Co-axal circles.

5. The Parabola :—Equation of a parabola. The tangent. The normal. Pole and Polar. Diameters. Envelopes.

6. The Ellipse :—Equation of the ellipse. Equation of the tangent, and normal. Pole and Polar. Director circle. Auxiliary circles. Eccentric angle. Diameter. Conjugate diameters.

7. The Hyperbola :—The equation of an hyperbola. Conjugate diameters. Asymptotes. Equation of tangent and normal at a point. The equation of an hyperbola when referred to its asymptotes as axes of co-ordinates. Rectangular Hyperbola.

8. Polar equation of a conic, the focus being the pole. Polar equation of the tangent and normal at any point of a conic, the focus being the pole. Pole and Polar.

9. General equation of the second degree :—Reduction to the standard form. Director Circle. Four foci of a conic ; eccentricities of a conic. Similar conics.

10. System of conics :—One conic through five points. Conics through four points. Confocal conics. Contact of conics. Osculating conics.

Books recommended :—

Askwith ... Analytical Geometry of Two Dimensions.
Smith ... Conic Sections.

Solid Geometry—

A. Co-ordinates of a point ; the three types of co-ordinates ; distance between two points ; co-ordinates of a point dividing a finite line in a given ratio ; projections.

B. Planes equations, angle between two planes. Straight lines ; equations, shortest distance between two straight lines, angle between two straight lines, distance of a point from a given point ; triangles, tetrahedra.

C. Conicoids :—General properties, classification, determination of centre and axes.

D. Sphere, ellipsoid, hyperboloid of one sheet, hyperboloid of two sheets, paraboloid, cone.

E. Plane sections of a conicoid :—determination of axes and area of plane sections of a conicoid.

F. Circular sections of ellipsoids, hyperboloids of one sheet, hyperboloids of two sheets, paraboloids.

G. Generating lines :—existence, properties, and equations.

H. Confocal conicoids. Elementary theorems relating to curves in space ; indicatrix and curvature.

Books recommended :—

Smith ... Solid Geometry.
Bell ... Analytical Geometry of Three Dimensions.

Differential Calculus—

Limits, continuity, differential co-efficients, simple examples of discontinuity and non-existence of limits; calculations of derivatives and successive derivatives; Leibnitz's Theorem; Taylor's and Maclaurin's Theorems and their extensions. Lagrange's Theorem on the limits of Taylor's Theorem, including simple examples on the failure of Taylor's Theorem; Lagrange's Theorem on expansion; partial differentiation, Euler's Theorem on homogeneous functions, differentials, change of variables, Jacobians; maxima and minima of one or more variables including Lagrange's method of undetermined multipliers; undetermined forms; tangents and normals (whole of Chapter VII of Edward's bigger book); curvature; finding of the asymptotes, double points, points of inflexion, evolutes and envelopes of curves and tracing of well-known curves.

Reference: Edward's bigger book for the major portions. Stress on the principles and not on tricky questions.

Integral Calculus—

Integration. Elementary integrals. Integration by substitution. Integration by parts. Integration of rational fractions. Integration by successive reduction, by rationalization. Differentiation under the sign of integration. Integration under the sign of integration. Various methods of integration Definite integrals. Areas in Cartesian and Polar co-ordinates. Areas of well-known curves. Area of a pedal curve. Area of the pedal of an ellipse. Lengths of well-known curves. Volumes and surfaces of solids of revolution. Volume by double integration. Dirichlet's Theorem. Transformation of multiple integrals. Stokes and Green's Theorems. Fourier's Theorem and applications. (Byerly—Fourier's Series and Spherical Harmonics, Chapter II.)

Books recommended :—

Williamson ... Integral Calculus.
Byerly ... Integral Calculus.

Differential equations—

Ordinary equations of the first order; finding of the singular solutions of ordinary equations of the first order and of degree higher than the first; trajectories; linear equations with constant coefficients and equations reducible to linear forms with constant coefficients; method of variation of parameters; total differential equations; partial differential equation of first order. Simple examples of solutions in series.

Reference: Murray's book.

Theory of Functions of a Complex Variable—

Definitions, addition, subtraction, multiplication and division of complex quantities with simple geometrical applications. Holomorphic function. Singularities. Cauchy's Fundamental Theorem (without a discussion of the merits and demerits of different proofs) and Cauchy's Residue Theorem with their applications to the evaluation of easy definite integrals. Liouville's Theorem. Taylor's and Laurent's Theorems and their convergency; conformal representation; Stereographic and Mercator's Projections.

Books recommended :—

Macrobert ... Functions of a Complex Variable (chapters I—VI).
Goursat and Hedrick Mathematical Analysis, Vol. II, Part I (chapters I and II).

Statics—

A. General coplanar forces—reduction, conditions of equilibrium.
B. Graphical statics—force polygon, funicular polygon, their properties and applications.
C. Stability or instability of equilibrium.
D. Virtual work.
E. Centre of gravity of bodies.
F. Strings,—homogeneous and heterogeneous, elastic and inelastic.

Books recommended :—

Minchin ... Statics, Vol. I.
Routh ... Statics, Vol. I.
Loney ... Statics.

Hydrostatics—

Laws of fluid pressure; general conditions of equilibrium; uniformly rotating liquid (as if rigid); resultant pressure; centre of pressure; the equilibrium of a floating body; surface of buoyancy; position of equilibrium and stability of equilibrium in the case of a homogeneous liquid; oscillations of floating bodies: Boyle's Law; Charles' Law; Mixture of gases; specific heats; adiabatic expansions; determination of heights by means of barometer; tension of flexible surfaces; tension and pressure; capillarity.

Book recommended :—

Besant and Ramsey ... **Hydromechanics, Part I.**

Rigid Dynamics—

1. Moment of inertia; product of inertia; principal axes and moments. Equimomental systems.
2. D'Alembert's Principle for (1) finite forces, (2) impulsive forces. Principles of the independence of translational and rotational motions.
3. Motion of a rigid body rotating about a fixed axis. The Compound Pendulum. Impulsive motion.
4. Motion in two dimensions. Problems involving discontinuous frictional forces. Instantaneous Centre.
5. Motion in three dimensions. Moving axis. Instantaneous axis. Screw motion. Euler's Dynamical and Geometrical equations. General equations of motion under finite and impulsive forces.
6. Principles of the conservation of momentum and energy. Applications.
7. Lagrange's equations of motion (1) for finite forces, (2) for impulsive forces. Method of undetermined multipliers applied to non-holonomous systems.
8. Lagrange's equations of small oscillations. Principal co-ordinates. Oscillations about steady motion. Rotating systems. Forced oscillations including effect of dissipative forces.
9. Hamilton's Principle. Principle of Least Action. Hamilton-Jacobi equation.

Books recommended :—

Loney	...	Dynamics of a Particle and of Rigid Bodies.
Routh	...	Rigid Dynamics, Vol. I.
Lamb	...	Higher Mechanics.

Dynamics of a particle—

Fundamental Definitions and Principles. Motion in a straight line. Simple Harmonic motion. Composition of simple harmonic motion. Acceleration parallel to axes. Motion referred to polar co-ordinates. Revolving axes. Central orbits. Apses. Stability of orbits. Kepler's Laws. Law of the inverse square. Planetary motion. Time of describing any orbit. Relations between the eccentric, true and mean anomalies. Disturbed elliptic motion under transverse, radial, tangential and normal impulses and other disturbing forces. Constrained motion, conservation of energy The simple pendulum. Motion on a smooth or rough cycloid. Motion in a resisting medium. Varying mass. Small oscillations. Oscillations in a resisting medium and under periodic forces. Motion of a pendulum in a resisting medium. Motion in three dimensions. Accelerations in polar, cylindrical and curvilinear co ordinates. Motion on a sphere, cone, cylinder and a surface of revolution. Moving axes. The hodograph. Motion on a revolving curve.

Book recommended :—

Loney ... Dynamics of a Particle and of Rigid Bodies.

Astronomy—

1. The Celestial sphere. The systems of co-ordinates.
2. The earth. Co-ordinates which determine position on the earth. Rotation of the earth.
3. The sun. The sun's path among the stars. Variations in the length of the day. The seasons. The ecliptic. Determination of the First Point of Aries. Determination of the obliquity of the ecliptic. Transformation of co-ordinates
4. The determination of position on the earth. Finding latitude and longitude by observation.
5. Planets. Kepler's Laws. Form of the earth's orbit. Apparent motions of planets. The elements of their orbits. Stationary point and retrograde motion.
6. Time. Equation of time. Reduction and conversion of time. Finding time by observation.
7. Problems connected with the Diurnal Motion. Time of rising and setting of a heavenly body. Twilight.
8. Astronomical refraction. General differential equations. Formulæ for refraction of Simpson, Bradley and Cassini. Determination of refraction of observation.
9. Parallax. Parallax of a heavenly body, the earth considered spherical. Parallax in declination and hour-angle. Parallax determined by meridian observations. Annual parallax of stars Parallax in latitude and longitude of a star. Effect of parallax on the apparent position of star.
10. Aberration. Determination of constant aberration. Aberration in latitude and longitude. Aberration in right ascension and declination. Effect of aberration on the apparent position of a star.
11. Precession and Nutation. Effects of precession. Precession in declination and right ascension. Nutation.
12. The Moon. Its orbit. Phases. Rotation. Harvest Moon. Eclipses.
13. Description of the principal Astronomical Instruments.

Book recommended :—

Godfray ... Astronomy.

III.—M. A. AND M. SC. DEGREES.

I. Preliminary M. A and M. Sc. (Examinations to be held in 1928 and after.)

(Three Papers.)

Paper I.—Mathematical Analysis. (Corresponding to Honours Paper V.)

Paper II.—Analytical Statics and Hydrostatics. (Corresponding to Honours Paper VI.)

Paper III.—Dynamics of a Particle and Elementary Rigid Dynamics. (Corresponding to Honours Paper VII and first part of Honours Paper VIII.)

II. Final M. A. and M. Sc. (Examinations to be held in 1928 and after.)

(Five Papers.)

Paper I.—Statics including the theory of the Potential.

Paper II.—Theory of Vibrations.

Paper III.—Hydrodynamics or Electrodynamics (to be selected with the approval of the Head of the Department).

Papers IV and V.—One of the following groups to be selected with the approval of the Head of the Department :—

A

(a Harmonic Analysis ... ... One paper.
(b) Theory of Tides and Water Waves ... ... One paper.

B

(a) Harmonic Analysis ... ... One paper.
(b) Theory of Elasticity ... ... One paper.

C

(a) Celestial Mechanics ... ... Two papers.

D

(a) Theory of Electrons ... ... One paper.
(b) Theory of Radiation ... ... One paper.

Detailed Syllabuses.

(For examination to be held in 1928 and after.)

Statics—

System of forces in three dimensions; central axis, wrenches, screws, cylindroids, stability of equilibrium, maximum or minimum height of centre of gravity, stability of equilibrium of a heavy body resting on a fixed rough surface; strings in three dimensions, central forces, elastic strings; astatics.

Books recommended :—

Loney ... Statics.
Routh ... Statics, Volumes I and II.
Minchin ... Statics, Volume II.

Theory of Potential—

Potential in general ; Logarithmic and Newtonian potential functions ; potential and work, some characteristics of potential function, surface distribution, law of Coulomb and Poisson ; direct calculation of attractions and potentials of rods, discs, spheres, etc. ; Gauss's, Laplace's and Poisson's Theorems including the question of validity of Poisson's equation ; potential at a distant point, MacCullagh's Theorem, equipotential surfaces ; potentials and attractions of homogeneous ellipsoids, elliptic cylinders and ellipsoidal shells ; Ivory's and Maclaurin's Theorems ; Legendre's Theorem for the potential of a solid of revolution ; Dirichlet's problem for the sphere ; potential and stability ; Earnshaw's Theorem ; Green's Theorem, Green's equivalent layers ; potential completely determined by its characteristic properties ; uniqueness of solution. Method of inversion.

Books recommended :—

Loney ... Statics.
Routh ... Statics, Volume II.

Theory of Vibrations—

(a) A short history of the subject.
(b) Fourier's series and Lagrangian equations of small oscillations in generalised co-ordinates. Dissipative forces.
(c) Simple Harmonic motions. Composition and resolution.
(d) Transverse vibrations of strings, equation of motion, finite string, string plucked, string struck by a blow, violin string, reflexion, forced vibration of a string. Waves on an unlimited string, peculiarities of the waves.
(e) Longitudinal vibrations and flexural vibrations of rods, (a) longitudinal vibrations—equation of motion, rod free at both ends, rod free at one and fixed at the other, (b) flexural vibrations of a bar—equation of motion, bar free at both ends, bar clamped at both ends, bar supported at both ends, clamped—supported bar, clamped—free bar, supported—free bar.

(f) Extensional and flexural vibrations of a circular ring.
(g) Vibrations of membranes—equation of motion, rectangular membrane, square membrane, circular membrane, sectorial membrane.
(h) Vibrations of plates—equation of motion, boundary conditions, circular plate, rectangular plate.
(i) Vibrations of air—equation of motion, waves, spherical waves, simple harmonic waves, sources, sinks, doublets ; communications of vibrations to a gas, wave resulting from a given initial disturbance, waves due to the motions of solids through a gas, transmission of waves through an aperture, scattering, of waves by an obstacle, reflexion, refractions, waves of finite amplitude, vibrations of air in tubes and resonators.

Books recommended :—

Lamb ... Higher Mechanics.
Lamb ... Dynamical Theory of Sound.

Hydrodynamics—

The course is to be covered by Besant and Ramsey's Hydromechanics, Part II, Chapters I-IX, and Chapter X, Arts. 209-226.

Harmonic Analysis—

The course is to be covered by Byerly—Fourier's Series and Spherical Harmonics Chapters I and II and Chapters V-VIII.

Theory of Tides and Water Waves—

Tidal Waves.

1. Short description of the Tides and Tidal Phenomena. Sense in which the phrase "Tidal Oscillations" is used.
2. Free waves in a uniform canal—Energy of a wave system. Artifice of steady motion.
3. Effect of disturbing forces ; free and forced oscillations in a finite canal.
4. Analysis of the Tide-generating forces. Classification of the different species of tides. Equilibrium theory ; Dynamical theory. Correction to the equilibrium theory.
5. Canal theory of tides. Semi-diurnal and diurnal tides ; fortnightly tides. Equatorial canal of finite length, lag of the tide.
6. Tidal oscillations in a canal of variable section.
7. Waves of finite amplitude.
8. Wave motion in two horizontal dimensions—oscillations of (1) a rectangular sheet, (2) a circular sheet of water.
9. Waves due to periodic local pressure.
10. Oscillations of a spherical sheet of water. Effect of mutual attraction of the liquid.
11. Tidal oscillations of a rotating plane sheet of water.
12. Tidal oscillations on a rotating globe.
13. Laplace's Kinetic Theory.
14. Tides of long period—Laplace's Solution—Darwin's Solution.
15. Diurnal and semi-diurnal tides—Laplace's Solution.
16. Hough's investigations.
17. Lag of the tides—spring and neap tides.
18. Effect of tidal friction on the length of the sidereal year.

Surface Waves.

1. Statement of the two dimensional problem—standing waves—progressive waves—energy.
2. Artifice of steady motion.
3. Waves on the boundary between two currents.
4. Theory of group velocity.
5. Cauchy-Poisson wave problem ; waves due to an initial elevation or to a local impulse.
6. Surface disturbance of a stream due to inequalities in the bed.
7. Waves due to a submerged cylinder.
8. Waves due to a travelling disturbance.
9. Surface waves of finite height.
10. Gerstner's rotational waves.
11. Solitary waves.
12. Wave propagation in two horizontal dimensions.
13. Ship waves.
14. Standing waves in limited masses of water.
15. Oscillations of a liquid globe.
16. Capillary waves—waves on the common boundary of two currents.
17. Vibrations of a liquid globule.

UNIVERSITY OF DACCA.

Syllabuses—Session 1927-28.

FACULTY OF SCIENCE.

DEPARTMENT OF PHYSICS.

B. SC. (ORDINARY) DEGREE EXAMINATION, 1929.

First year Course.

I. Properties of Matter and Sound : Two lectures per week.

(*a*) Properties of Matter.

Laws of motion ; Work, Power, and Energy ; Units and Dimensions of Physical Quantities ; Motion in straight and circular paths ; Friction ; Machines ; Elasticity ; Moments of Inertia (simple cases only) ; Simple Harmonic Motion ; Pressure in liquids and gases ; Archimedes' Principle ; Specific gravities ; Liquids in Motion ; Capillary action.

Text-books recommended :—

Duncan and Starling Text-book of Physics, Part I.
Watson ... Text-book of Physics.

(*b*) Sound.

Wave motion ; Production and Propagation of Sound ; Noises and Musical Notes and their Characteristics ; Musical Scale and Intervals ; Interference ; Consonance and Dissonance ; Vibrations of strings and Air Columns ; Resonance.

Text-books recommended :

Poynting and Thomson ... Sound.
Duncan and Starling Text-book of Physics, Part IV.

II. Heat : Two lectures per week.

Temperature and Thermometry ; Expansion ; Calorimetry ; Change of State ; Properties of Vapour ; Hygrometry ; Elementary Principles of Thermo-dynamics ; Conduction Convection and Radiation ; Steam and other heat engines.

Text-book recommended :—

Edser ... Heat for Advanced Students.

Laboratory work—Two periods of two hours each per week.

The Spherometer ; Specific gravities ; Young's Modulus, simple Pendulum and determination of 'g' ; Atmospheric pressure and Boyle's Law. Velocity of sound ; Determination of pitch ; Kundt's Tube ; The Sonometer ; Melde's Experiments ; Expansion of solids and liquids and gases ; Determination of Specific and Latent Heats ; Cooling ; Hygrometers.

Text-books recommended :

Allen and Moore ... Text-book of Practical Physics.
Harrison ... Course of Practical Physics.
Watson ... Practical Physics.
Datta ... Text-book of Practical Physics.

Second year Course.

III. Light : Two lectures per week.

Propagation of light ; Photometry ; Reflection and refraction ; Prisms, Mirror and Lenses ; The Human Eye and Defects of Vision ; Optical Instruments ; Dispersion and Chromatic Aberration ; Velocity of light ; Wave Theory ; Interference ; Diffraction ; Polarisation and double refraction, elementary ideas only.

Books recommended :—

Houston ... Intermediate Light.
Edser ... Light.
Watson ... Text-book of Physics.

IV. Magnetism and Electricity : Two lectures per week.

Fundamental Theory of Magnetism and General Theories ; Magnetic measurements ; Terrestrial Magnetism ; Fundamental Theory and General Theorems in Electrostatics ; Capacity and Condensers ; Electrical Machines ; Electrometers ; Atmospheric Electricity ; Primary and Secondary Cells ; General effects of currents ; Fundamental definitions and units ; General Theory ; Currents and Magnets, Ampere's Hypothesis ; Galvanometers ; Divided Circuits ; Ohm's Law ; Electromotive Force ; Resistances : Joule's Law ; Thermo-Electricity ; Electromagnetic induction ; Induction Coils ; Electromagnetic Machinery ; Electrical Units ; Electrolysis ; Radio-activity, elementary theory only ; X-rays, elementary.

Text-books recommended :—

Hadley ... Electricity and Magnetism.
Hutchinson ... Intermediate Text-book of Electricity and Magnetism.

Laboratory work—Two periods of three hours each per week.

The Sextant; Refraction through Prisms; Refractive Indices; Focal lengths of Mirrors and Lenses; The Optical Bench; Magnifying powers; The Spectrometer; Law of Inverse Squares; Determination of "H"; Spring Magnetometer; Dip, Simple determination; The Tangent Galvanometer; Comparison of Resistances and Electromotive forces; The Potentiometer, Wheatsone's Bridge Electro-Chemical Equivalents.

Text-books recommended :—

Allen and Moore ... Text-book of Practical Physics.
Harrison ... Course of Practical Physics.

The final examination at the end of the 2nd year will consist of two Theoretical papers of three hours each and one Practical examination for six hours.

Paper I—

Part I. Properties of Matter and Sound.
Part II. Heat.

Paper II—

Part I. Light.
Part II. Magnetism and Electricity.
Practical Examination.

HONOURS SCHOOL OF PHYSICS.

B. SC. (HONOURS) DEGREE EXAMINATION, 1930.

First year Course.

I. Mechanics and Properties of Matter: Two lectures per week.

Motion in straight and circular paths; Laws of Motion, Work, Power, and Energy; Units; Power, and Dimensions of Physical Quantities; Collision and Impact; Rotatory Motion; Moments and Products of Inertia; Simple Harmonic Motion and Motion about a fixed axis; Simple and Compound Pendulums; Attraction, Potential, Gravitation; Theory of Elasticity; Hydrostatics; Pressure in liquids; Centre of Pressure; Hydraulic transmission of Energy; Barometer; Pumps; Archimedes' Principle; Liquids in motion; Total emergy of a liquid; Bernouli's Theorem; Discharge through an orifice; Water-wheels, Turbines, Centrifugal pumps; Surface-tension and Capillarity; Laplace's Theory of Capillarity; Diffusion of liquids and gases; Viscosity of liquids.

Text-books recommended :—

Loney ... Elementary Dynamics.
Poynting and Thomson Properties of Matter.

For reference :—

Loney ... Dynamics.
Loney ... Statics.

II. Heat: Two lectures per week.

Temperature and Thermometers; Expansion; Calorimetry; Change of state, Properties of Vapours; Hygrometry; Kinetic Theory of Gases; On the continuity of state; The Principles of Thermodynamics; Convection, Conduction and Radiation of Heat: Steam and Heat Engines.

Text-books recommended :—

Poynting and Thomson Heat.

For reference :—

Preston ... Theory of Heat.

Laboratory work—Four periods of three hours each per week.

The Balance; Sensibility curve; Calibration of weights; The Cathetometer; Measurement of vertical length by a scale and reading telescope; Density determination with corrections; Determination of elastic constants; Determination of 'g' by simple and compound pendulums and by ball rolling on a concave mirror; Surface-tension; Viscosity; Moments of Inertia; Heat; Expansion of liquids; expansion of solids by the Weight Thermometers; Weight Thermometers; Calibration of Thermometer tubing; Experiments on Specific Heat; Berthelot's steam calorimeter; Hygrometry; Vapour Density; Conductivity experiment; Mechanical equivalent of heat.

Text-books recommended :—

Watson	...	Text-book of Practical Physics.
Allen and Moore	...	Text-book of Practical Physics.

III. Sound : November to March—Two lectures per week.

Wave Motion; Dynamical Theory; Propagation of Sound; Noises and Musical Notes; Musical Scale; Interference; Transverse Vibration of Strings, Dynamical Investigation; Longitudinal and Torsional Vibrations of bars; Plane Waves of Sound; Vibrations of Air columns in Pipes. Resonance and Analysis of Vibrations, Combination Tones. Consonance and Resonance. The Ear and Musical Instruments.

Text-book recommended :—

Poynting and Thomson	...	Sound Book.

For reference :—

Helmholtz	...	Sensations of Tone.
Lamb	...	Dynamical Theory of Sound.

Second year Course.

IV. Light.

(*a*) Geometrical Optics : July to September—Two lectures per week.

Propagation of light; Reflection and Refraction; Mirrors, Prisms, Lenses; Fermat's Law; Caustics; Dispersion and Achromatism; Optical Instruments; Velocity of light.

Text-books recommended :—

Heath	...	Elementary Treatise on Geometrical Optics.
Houston	...	Text-book of Light.

For reference :—

Southall	...	Mirrors, Prisms and Lenses.

(*b*) Physical Optics : July to March—Three lectures per week.

Wave Theory: Interference and Diffraction; Polarisation and double Refractions; Spectroscopy of the Ultra Violet; Theories of Dispersion and Radiation, etc.

Text-book recommended :

Houston	...	Text-book of Light.

For reference :—

Preston	...	Theory of Light.
Wood	...	Physical Optics.

V. Statical Electricity and Magnetism : November to March—Two lectures per week.

(*a*) Statical Electricity—General Phenomena and General theorems; Potential and energy in electrified system, capacity. The Dielectric and Specific Inductive capacity, Atmospheric Electricity.

(*b*) Magnetism : General Phenomena and General Theorems, Inverse Square Law, Magnetic fields, Induced Magnetisation, Magnetic Properties of Materials, Magnetic Susceptibility and Permeability, Terrestrial Magnetism, Magnetism and Light.

Text books recommended :—

Poynting and Thomson	...	Electricity, Parts I and II.
Starling	...	Electricity and Magnetism.
Wetham	...	Theory of Experimental Electricity and Magnetism.

VI. Thermodynamics : One lecture per week.

Laboratory work—Four periods of three hours each per week.

Light, Laws of geometrical optics, Mirrors, Prisms and Lens, Optical Bench, Optical instrument, Magnifying powers, the Spectroscope and the Spectrometer, Biprisms. Newton's rings, Polarimeter.

Sound, Velocity of Sound, Frequency, Vibrations of Strings, Vibrations of Air Column.

Magnetism, Fundamental properties and laws, Magnetometry, Oscillations of a magnet in a magnetic field. The Earth's Magnetic field.

Text-books recommended :

Watson	...	Text-book of Practical Physics.
Allen and Moore	...	Text-book of Practical Physics.

Third year Course.

VII. Current Electricity : Three lectures per week.

The Electrical current, Ohm's Law, Electromotive Force and Resistance. Electrolysis, Thermo-Electricity, Electromagnetics. Varying currents. Alternating Currents. Units and Dimensions, Electromagnetic radiation.

Text-books recommended :—

Starling	...	Electricity and Magnetism.
Wethem	...	Theory of Experimental Electricity.

Electromagnetic Theory—One lecture per week.
VIII. Electronic Theory and Structure of Matter : One lecture per week.
Laboratory work : Five periods of four hours each per week.

Current electricity, measurement of current, electromotive force and resistance. Electrolysis, induced currents, comparison of capacity.

Text-books recommended :

Watson	...	Text-book of Practical Physics.
Allen and Moore	...	Text-book of Practical Physics.

Examinations—Five papers of three hours each and a practical examination for 12 hours.

PHYSICS FOR THE M. SC. DEGREE EXAMINATION, 1929.

Two years' course for ordinary Pass B. Sc. Students.

First year Course.

Geometrical Optics : 12 lectures. } Covering the Honours B. Sc.
Light : Two lectures per week—July to March. } Course.
Magnetism and Electricity. Covering the Honours B. Sc.—Two lectures per week—July to March.
Electrostatics : 12 lectures.
Magnetism : 12 lectures.
Electromagnetic Theory : 24 lectures.
Modern Work : 12 lectures.
Laboratory Work, covering the whole courses : Not less than 20 hours per week.
The Preliminary M. Sc. Examination consists of two theoretical papers of four hours each and a two days' practical examination.
This examination is held at the end of the first year course.

Second year Course.

Electron Theory : 12 lectures.
Ionisation and conduction through gases : 12 lectures.
Quantum Theory and Thermodynamics : Two hours per week, 24 lectures.
Radioactivity : 12 lectures.
X-Ray and High Frequency Spectra : 12 lectures.
Relativity : 12 lectures.
Photo-Electricity : 12 lectures.
Atomic Structure : 12 lectures.
Modern Researches, including Spectroscopy : 12 lectures.

M. Sc.—One years' course for honours B. Sc. Students of the Dacca University.

The Honours B. Sc. students will read the second year M. Sc. course.
Laboratory work in the second year M. Sc. course will consist of at least 20 hours per week.

UNIVERSITY OF DACCA.

Syllabuses—Session 1927-28.

FACULTY OF SCIENCE.

DEPARTMENT OF CHEMISTRY.

B. Sc. HONOURS.

Physical Chemistry.

Theoretical—

Laws of chemical combination by weight and volume; Atomic theory and Avogadro's hypothesis; molecular weights of gases.

Kinetic theory of gases.

Liquefaction of gases; viscosity and surface tension of liquids. Law of conservation of energy; energy changes in chemical transformations.

Second law of Thermodynamics; vaporisation of liquids and fusion of solids.

Osmosis; theory of solution; thermodynamic treatment of the properties of solutions.

Laws of electrolysis; molecular conductivity of electrolytic solutions.

Transport number of ions; electrolytic dissociation theory.

Chemical changes in homogeneous systems:—Law of mass action; reaction isochore; velocity of mono and demolecular reactions; determination of the order of reaction, equilibrium in electrolytic solutions; theory of indicators.

Chemical changes in heterogeneous systems:—Phase Rule; catalysis; colloidal solutions.

Technical gas reactions; manufacture of sulphur trioxide, ammonia, oxides of nitrogen, oxidation of ammonia to nitric acid. Deacon Process for the manufacture of chlorine, manufacture of formaldehyde.

Theory of galvanic cells; absolute value of single electrode potential; decomposition potential; concentration and gas cells.

Determination of Avogadro's number. Structure of the atom. Radio-active transformations.

Practical work in the laboratory to cover the whole subject.

Books recommended as text-books for B. Sc. Honours in Physical Chemistry:—

1. Introduction to Physical Chemistry, by Sir James Walker.
2. Thermochemistry and Thermodynamics, by Sackur.
3. Theoretical Chemistry, by Nernst.
4. Physico-chemical Calculations, by Knox.

Books recommended for reference:—

1. A System of Physical Chemistry, by Lewis.
2. Phase Rule, by Findlay.
3. Principles of the Phase Theory, by Douglas A. Clibbens.
4. Osmotic Pressure, by Findlay.
5. Electro-Chemistry, by Leblanch.
6. Chemical Statics and Dynamics, by Mellor.
7. Colloidal Solutions, by Taylor.
8. Catalysis, by Jobling.
9. Catalysis in Theory and Practice, by Rideal and Taylor.
10. Thermodynamics of Technical Gas Reaction, by Haber.
11. Atoms, by Perrin.
12. Electron, by Millikan.
13. Annual Reports on the Progress of Chemistry, issued by the Chemical Society, London.
14. Radio-active Substances and their Transformations, by Rutherford.
15. Ions, Ionising Substances and their Radiations, by Crowther.

Practical text-books:

1. Practical Physical Chemistry, by Spencer.
2. Physical Chemistry, by Findlay.

Reference books:—

K. Arndt ... Handbuch der Physikalisch-chemischen Technik.

Organic Chemistry.

Theoretical—

A thorough knowledge of the following:—

Aliphatic saturated and unsaturated hydrocarbons and their derivatives, viz., haloid derivatives, alcohols, ethers, aldehydes, ketones, esters, acid chlorides, amides, amines, cyanogen compounds and sulphur compounds. Organo-metallic compounds of zinc and

magnesium. Polyhydric alcohols and their oxidation products, carbohydrates, hydroxy and amino acids, aldehydic and ketonic acids, di-ketones, polybasic acids, and their derivatives, purines.

Aromatic hydrocarbons and their derivatives; viz., haloid, nitro, amino, sulphonic acid and hydroxy derivatives; diazo and azo-compounds; aromatic alcohols, aldehydes, ketones, acids (including substituted acids), esters, acid chlorides, anhydrides, amides, quinone, multinuclear hydrocarbons, benzidine, di and tri-phenyl methanes and their derivatives, naphthelene and its derivatives, anthrecene, anthraquinone, alzarin, indigo, phenanthrene; pyridine and quinoline and their derivatives; furfurance, thiophene pyrol, diazoles, exazoles, thiazoles, diazines, oxazines, thiazines. A general knowledge of the essential oils, monocycline terpenes, pinene, camphor and citral. A general knowledge of the alkaloids, piperine, cocaine, quinine and papaverine. A general knowledge of the synthetic drugs and synthetic dyes; storeo chemistry of carbon, nitrogen and sulphur. A general knowledge of the principles of organic analysis, wood distillation, fermentation distillation of coal-tar, theory of dyeing and bleaching.

Practical—

Identification of any of the simpler substances covered in the theoretical syllabus.

Estimation of carbon, hydrogen, nitrogen, halogens and sulphur in organic compounds. Determination of the molecular weights of organic acids and bases. Preparation of the following substances :—nitro benzene, aniline, acetanilide, sulphanilic acid, ethyl acetate, anthraquinone, phenol-phthalein, p-nitra niline, acetyl chloride, p-amino-azo-benzepe, p-iodot-oluene, benzil, phenylglucosazone, phenyl mustard oil, phithalic acid.

Estimation of the common radicals in organic compounds.

Analysis of oils, fats, soaps, valuation of tannin materials, sugar, starch, phenol.

Recommended as text-book :—

Theoretical Organic Chemistry—By J. B. Cohen.
,, Wade.
,, Holleman.
,, Bernthsen.
,, Sudborough.

Reference books :—

Richter's Organic Chemistry, Vols. I, II and III.
Cohen's Organic Chemistry, Vols. I, II and III.
Stewart's Recent Advances in Organic Chemistry.
Pope's Modern Researches.
Annual Reports on the Progress of Chemistry, issued by the Chemical Society, London.

Inorganic Chemistry.

Theoretical—

Classification and mutual relations of all the elements (including the radio-elements and the study of the elements and their important compounds).

Metallurgy of Copper, Silver, Gold, Iron, Zinc, Lead, manufacture of sulphuric acid, bleaching powder, sodium carbonate, caustic soda, paints and pigments, porcelain, glass, cement manufacture of fuel gases, calorific value of fuels.

Study of the theory of valency, allotropy, colloids, intermetallic compounds, isotropism, crystalline structure, isomorphism and isotopic elements.

Practical—

Qualitative analysis of inorganic substances or mixture containing not more than five radicals.

A thorough knowledge of volumetric and gravimetric analysis, including analysis of minerals and gases.

Preparation of important inorganic compounds, as for example, anhydrous ferric chloride, magnesium chloride, potassium persulphate, sodium thiosulphate, cobaltammine collodial ferric hydroxide, collodial red gold.

The following books are recommended, the first as text :—

1. Inorganic Chemistry, by T. Martin Lowry.
2. Rare Elements, by Browning.
3. The Chemistry of Radio Elements, by Soddy.
4. Isotopes by Astons.
5. Peracids and their Salts, by S. Price.
6. Intermetallic Compounds, by C. H. Desch.
7. Systematic Inorganic Chemistry, by Caven and Lander
8. Catalysis in Theory and Practice. by Rideal and Taylor.
9. Outlines of Industrial Chemistry, by Thrope.
10. Treatise on Inorganic Chemistry, by Roscoe.
11. Text-book of Inorganic Chemistry, by J. N. Friend.
12. Dictionary of Applied Chemistry, by Thrope.

Practical—

Treadwell—Inorganic Analysis.
Biltc—Inorganic Preparations.

B. Sc. Pass.

Physical Chemistry.

Theoretical—

Essential features of chemical and physical change. Laws of chemical combination by weight and volume, Atomic theory, Avogadro's hypothesis and its application, Determination of molecular weights; Diffusion of gases; Elementary knowledge of (1) the kinetic theory of gases, (2) theory of solutions and (3) electrolytic dissociation theory. Conditions of chemical change and thermal changes accompanying it; Dissociation of gases; Colloidal solutions; Dialysis.

Books recommended as texts :—

(1) Introduction to Physical Chemistry, by Sir James Walker,

or

(2) Physical Chemistry, by G. Senter.

Organic Chemistry.

Theoretical—

General principles of organic analysis.
Preparation and properties of the following :—

Methane and ethane and their simple derivatives, viz., haloid derivatives, alcohols, ethers, aldehydes, ketones, acids, esters, acetyl chloride, acetic anhydride, acetamide amines, cyanogen compounds, ethylene, acetylene, glycol, glycerine, cane-sugar, dextrose, fructose, starch, lactic acid, oxalic acid, succinic acid, malic acid, citric acid, tartaric acid, urea, benzene and toluene and their simple derivatives, viz., mono-haloid, nitro, amino, hydroxy and sulphonic acids, benzyl alcohol, benzaldehyde, acetophenone, benzoic acid, salicylic acid.

Practical—

Identification of the following organic substances given single :—Methyl alcohol, ethyl alcohol, chloroform, ether, acetone, formaldehyde, glycerine, formic acid, acetic acid, oxalic acid, tartaric acid, citric acid, cane-sugar, glucose, starch, urea, benzene, aniline, phenol, benzoic acid.
Determination of melting and boiling points of organic compounds.
Qualitative detection of the elements present in an organic compound.

Inorganic Chemistry.

Preparation and properties of the following elements and their chief compounds :— Oxygen, Hydrogen, Nitrogen, Argon, Fluorine, Chlorine, Bromine, Iodine, Sulphur, Boron, Carbon, Silicon, Phosphorus, Arsenic, Sodium, Potassium. Calcium, Strontium, Barium, Magnesium. Manganese, Iron, Nickel, Cobalt, Tin, Lead, Antimony, Bismuth, Gold, Silver, Copper. Zinc, Mercury, Cadmium, Aluminium, Chromium.
Chemical notation and nomenclature. Interpretation of chemical formulæ. Classification and mutual relation of elements. Compound radicals. Double decomposition, Allotropy.

Books recommended :—

Mellor—Inorganic Chemistry.
Partington—Inorganic chemistry.

Practical—

Preparation of ferrous sulphate, caustic soda, ammonium carbonate, red lead, potassium permanganate and substances of similar nature.
Qualitative analysis of inorganic substances containing not more than two salt radicals.
Volumetric estimation of alkalies, alkaline carbonates, acids, iron and silver.
Gravimetric estimation of copper sulphate or any similar substance.

UNIVERSITY OF DACCA.

Syllabuses—Session 1927-28.

FACULTY OF ARTS.

DEPARTMENT OF EDUCATION.

B. T. DEGREE AND L. T. DIPLOMA.

Course 1.—Educational Psychology.

I. The relation of Psychology and Education. Description of the nervous system and its functions. Heredity and Environment.

II. The Instincts. Emotions, Sentiments, the Complex, and the structure of character. The mental development of the child and adolescent. Suggestion, imitation and habit in character formation.

III. Sensation and perception. Attention. Fatigue. The Problems of Learning. The Motives of Learning. Interest Play. Memory. Practice. Overpractice. Forgetting. Transference and Interference. Imagery. Association. Imagination and Reasoning.

IV. Applications of Psychology to the teaching of school subjects.

Course 2.—Principles of Teaching.

I. Teaching and Learning.

The influence of the aim of education on methods, curriculum and system of discipline. The curriculum.

The classes. Methods of classification. The problem of individual differences Various attempts at solution. Modern individualistic tendencies. The class teacher and the specialist.

The Time-Table. Home work and "Teaching how to study". Private tuition.

General principles of teaching and learning.

Teaching.—The framing of courses. Units of teaching and notes of lessons. Types of lesson. Devices. The teacher's note book and diary.

Learning.—Notes. Practice exercises. Tests. Examinations. Marks. Class discipline.

The teacher's duties outside the class room: games, occupations, contact with parents and guardians.

II. School organisation.

Supervision and control of teaching, of home work.
Tests. Reports. Promotion. The Teacher's conference.
The Discipline of the school.
The Hostels.
The school office.

III. Methods of teaching the fundamental subjects.

Reading, Writing, Arithmetic, and the elements of other selected subjects.

IV. School Inspection.

Course 3.—History of Education.

Each unit of teaching will consist of—

1. A lecture on the history and the present position of the problem.
2. A formal debate in the class.
3. An Essay by each student embodying his views on the problem.

(The various sections will be taken up by various members of the staff. For the lectures and discussions outside persons will also be invited.)

I.—Primary Education in Bengal.

(A) History. (B) The Problem of Finance. Compulsion: is it possible? Overlapping of school areas. The responsibility of the Local and of the Central authority. The mechanism of supervision and of control.

Discussion.—A Practical Scheme for the development of Universal Primary Education in Bengal.

II.—Secondary Education in Bengal.

(A) History. (B) The Problem of control—the State or the University. What should be the relation of the State to the system? Should zilla and Government schools be abolished? Has the High school usurped the function of the Primary School? Are there too many High Schools? How can the High School be adjusted to meet the needs of special classes? Should class schools be established for the Upper Classes? What type of school is required by the Middle Classes?

Discussion.—Lines of reform in the High School.

III.—The Language Problem in Bengal.

(A) History and review of the problem. (B) The objections to the present system. The objections to vernacularization. Possible middle courses.

Discussion.—The relative positions of English and the vernacular in the educational system of Bengal.

IV.—Vocational and Technical Education in Bengal.

(A) History. (B) Should vocational training take place in the ordinary schools or in special schools? Should it take place in the school at all, or in connection with the factory as a form of "continuation" or "part-time" education? If in special schools or in the Factory, what should the ordinary school do in the matter? What should be the subjects? How can the courses be adjusted in the demands of the labour market? Problems of finance.

Discussion.—Is Vocational Education practicable in Bengal before the University stage?

V.—University Education in Bengal.

(A) History. (B) Is there too much University Education in Bengal? Is education of the right kind being given; if so, is the right kind of student taking the education which is being given? The standard of examination. Unemployment of Graduates.

Discussion.—A practicable policy of University Reform.

VI.—The Teaching Profession in Bengal and its training.

Part I.—Primary.—(A) History. (B) The improvement of the status of the Primary teacher,—pay, security, social status. What encouragement can be given to the trained man? What can be done to provide staffs for the schools if Free or Compulsory Primary Education is introduced? Is the present system of training effective?

Part II.—Secondary.—The improvement of the status of the High School teacher—pay, security, social status. Encouragement to the trained man. Should training come before or after school experience? Education as a B. A. subject. Refresher Courses. Is the present course of training effective? The work of the Training College other than the training of teachers. The problem of school text-books in Bengal.

Discussion.—1. The improvement of the status of the teacher.

2. The organisation of an efficient system of Teacher-training institutions in Bengal.

VII.—The Civic Function of the school in Bengal.

(A) Review of present conditions in the teaching of civics in other countries.

(B) Are schools in Bengal at present fulfilling their civic as well as their intellectual function? Is it possible for the school to give any training in civic understanding and responsibility? What should be the relation to the Schoolmaster and of the school to local, provincial and imperial politics? The needs and dangers of the case.

Discussion.—In what way can the schools in Bengal help to develop civic knowledge and responsibility?

VIII.—The Social function of the school in Bengal.

(A) History.—(The hopes of early educationists in Bengal.) (B) The function of the school in reference to Hygiene (personal, domestic and public), and to current social problems. Can the school do anything in these matters? If so, how?

Discussion.—What contribution can the schools in Bengal make towards social reform?

Course 4.—Educational measurement.

(For B. T. candidates only.)

I. Individual Differences, their nature and extent. The Frequency Curve. Measures of Central Tendency. Measures of Variability. Correlation.
II. Marks and examinations as measures of school work. Causes of unreliability Types of test,—Analytic, Application. Principles of testing. The criteria of a test. A review of various tests as illustrating the above. The Norm: its meaning and validity. Practice in the setting of tests. Intelligence tests.
III. (For Special Proficiency course only.)—Fundamentals of experimental method.

Course 5.—School Hygiene.

I. Outline of Anatomy and Physiology.
II. Outline of diseases with bacteriological classification.
III. Outlines of First Aid, Nursing, and Hygiene.

SPECIAL SUBJECTS.

1. Advanced English.

I. The diagnosis and cure of wrong pronunciation. Reading aloud. Lectures Demonstrations. Practice classes.
II. Teaching of Idiom by oral translation. Practice Classes.
III. Composition. The Description. Conversation. Character. Short story. Letters. The Précis.
IV. The Teaching of English.

2. Geography.

I. The method of teaching Geography.
II. Elementary Physical Geography—

(1) Configuration of the great land-masses and oceans. Seasons. Wind and Water Currents. Climate. Distribution of Flora and Fauna, of Mankind.
(2) Map-drawing and Map-reading.
(3) Physical characteristics of India—Detailed study. Commercial Geography of India.
(4) Main features of other continents.
(5) Trade routes.
(6) Commercial Geography. Present-day production of the chief countries—in agriculture, mining, industry, commerce, with special reference to the United Kingdom, United States, Germany, France, Japan, Russia.

III. Advanced Geography—

Physical Geography as a basis of the various types of civilisation and as a determining factor of national and economic development.
Detailed study of the physical character of the chief countries of the world.
Advanced Commercial Geography of the World.
Meteorological observations and charts.
Trigonometrical survey. Map-making and Mercator's Projection.

3. History.

The teaching of History.

A course of reading in general history or history of India to be arranged by the instructor.

Lectures on the method of teaching history.

The framing of courses and lessons, criticism and demonstration lessons on Indian History from ancient times to the institutions of the Reformed Councils.

4. Bengali.

The teaching of Bengali.

A course of reading in Bengali literature and its history to be arranged by the instructor. Lectures by the instructor or by students on selected topics.

A course of original composition in Bengali.

Framing of courses and lessons, criticism and demonstration lessons on Bengali language and literature.

5. Mathematics.

The value and the aims of mathematical teaching, and the methods of teaching the subject. Framing of courses and lessons. Criticism and demonstration lessons.

Arithmetic—

Numbers and number combinations. Fundamental operations on whole numbers and fractions. The amount and nature of drill work required in arithmetic. Problems: the technique of solving problems. Practice in framing problems.

Algebra—

The nature of Algebra. The equation. The formula. The graph. Problem-solving.

Geometry—

Fundamental ideas. Experimental and practical work. Analytic and Synthetic proof.

6. Art and Manual Work.*

A short course of illustrated lectures on Perspective. The technique of pastel, the technique of water colour.

A course of out-of-door instruction in charcoal, pastel, water colour.

A course of indoor instruction in manual work in plasticine, card-board, wood, and in mixed materials. Construction of didactic apparatus.

Framing of courses and lessons in manual work and drawing.

A short course of reading (to include Indian Art) to be framed by the instructor.

7. The Primary Curriculum.

(For inspecting officers and masters of primary training institutions.)

The content and method of teaching and testing the subjects of the primary curriculum. The equipment, organization and special problems of the primary school in Bengal.

8. Science (Biology) (Provincial.)

Elements of plant function, structure and and evolution. Elements of animal function, structure and evolution. Comparison of plants and animals. Human origin, development and evolution. The place of man in the evolutionary scale.

9. Drill and Organisation of Games.†

The student will be required to perform drill, to conduct and criticise classes in drill and in junior games, to organise and supervise senior games.

* A preliminary test will be made of those wishing to take up this course. Only those of superior ability in the subject will be admitted. Students may be required to provide their own materials.

† May be taken as a fourth subject.

BELGACHIA, *the 16th March 1927.*

EDUCATION DEPARTMENT, BENGAL.

Post-Graduate Research Scholarships to be awarded in 1927.

NOTIFICATION.

Three Post-Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, histrry, archæology, anthropology, etc., and the third scholarship will be awarded for research either in scientific or in literary subjects. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1927, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied, to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a college or other institution in Bengal the M. A. or M. Sc. Examination of the Calcutta or Dacca University or of having obtained some other equivalent or higher degree of either of these Universities in 1924 or 1925 or 1926. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work, with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

E. F. OATEN,

CALCUTTA, *the 17th March 1927.* *Director of Public Instruction, Bengal.*

BENGAL COUNCIL OF MEDICAL REGISTRATION.

No. 1506M.R.

It is hereby notified for general information that the Council of Medical Registration have been pleased to recognise the National Medical Institute, Calcutta, temporarily for five years as an institution qualified to train and send up students for the Licentiateship Examinations of the State Medical Faculty of Bengal up to the Final standard, provided that the authorities of the Institute comply within one year from this date with the following conditions, viz. :—

(*i*) That a morgue be provided close to the hospital for pathological *post-mortem* examinations.

(*ii*) That arrangements be made for practical medico-legal training of students.

(*iii*) That accommodation be provided for at least 100 beds in the Institution itself.

(*iv*) That the annual admission be limited to 100 students and that the number on the rolls of the institute be ordinarily restricted to 400.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February 1927:—

LEGISLATIVE ASSEMBLY BILL NO. 18 OF 1927.

A Bill further to amend the Inland Steam Vessels Act, 1917.

WHEREAS it is expedient further to amend the Inland Steam Vessels Act, 1917; It is hereby enacted as follows:— I of 1917

Short title and commencement.

1. (*1*) This Act may be called the Inland Steam Vessels (Amendment) Act, 1927.

(*2*) It shall come into force on the first day of January 1928.

Insertion of new sections 54A and 54 B in Act I of 1917.

2. In Chapter VI of the Inland Steam Vessels Act, 1917, after section 54, the following section shall be inserted, namely:— I of 1917

Maximum and minimum freights and fares to be fixed.

"54 A. The Governor General in Council may, by notification in the Gazette of India, prescribe the maximum and minimum rates of freights and fares which it shall be lawful for the owner of an inland steam vessel to charge for the conveyance of goods and passengers.

Advisory Committees

"54 B. The Local Government may make rules for the appointment of Advisory Committees to advise the owner of an inland steam vessel on questions affecting the interests of passengers, and may prescribe by rules the constitution and functions of such Committees."

STATEMENT OF OBJECTS AND REASONS,

The control exercised by Government over inland steam vessels carrying on goods and passenger service in this country does not extend to fixing the rates at which they can levy charges on the public. Virtually in the position of monopolists, the inland steamer organisations enjoy unfettered freedom in this matter. In Bengal and Assam where they supply very considerable facilities for transport, their charges are considered to be unduly high. There has been for some time a good deal of local public agitation against this state of things, but to no effect. It seems reasonable that, when Government exercise a certain amount of control over Railways owned and managed by private companies, in the matter of regulation of freights and fares, similar control should be assumed in respect of inland steam vessels also. It is proposed in this Bill to invest Government with authority to fix maximum and minimum freights and fares that can be lawfully charged by inland steamer services, on the analogy of similar authority in regard to Company-managed Railways. While the maximum rates would protect the public against exorbitant demands, the minimum scales to be fixed under the Bill would prevent unfair rate-wars which have in the past defeated indigenous efforts at organising inland steamer service in competition with powerful combines in Bengal.

A second provision in this Bill is to enable Advisory Committees to be constituted and attached to the inland steamer concerns at different important stations, more or less on the lines of Railway Advisory Councils. As matters stand at present, the agents of the monopolist companies running inland steamer services are not in touch with public opinion, and do not pay adequate attention to the grievances of the travelling public.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February 1927 :—

LEGISLATIVE ASSEMBLY BILL NO. 21 OF 1927.

A Bill to regulate marriages of children amongst the Hindus.

WHEREAS it is necessary to regulate marriages of children amongst the Hindus and to lay down the age under which such marriages shall be invalid ; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Hindu Child Marriage Act, 192 .

(*2*) It extends to the whole of British India, including the Scheduled Districts.

Definitions.

2. In this Act,—

(*a*) "Hindu" includes Jains, Sikhs, Brahmos, Arya Samajists and Buddhists.

(*b*) "Guardian" means a guardian as defined in the Guardians and Wards Act, 1890. VIII of 1890.

Marriageable age of a girl.

3. Notwithstanding any provision to the contrary existing anywhere, no marriage of a Hindu girl, except as provided in section 5, shall be valid, unless she has, on the day of her marriage, completed her twelfth year.

Marriageable age of a boy.

4. No marriage of a Hindu boy shall be valid unless he has, on the day of his marriage, completed his fifteenth year.

Marriage of girl below 12 valid if guardian obtains licence

5. The marriage of a Hindu girl who is under twelve years of age shall be valid if her guardian obtains, before such marriage, a licence for the performance of such marriage from the Magistrate of the district in which the girl ordinarily resides, authorising or permitting such marriage :

Provided that no such licence shall be granted, where the girl is under eleven years of age.

Grant of licence.

6. The Magistrate of the district shall grant a licence for the marriage of a Hindu girl to her guardian, who files a written application for the grant of such licence with an affidavit swearing to the fact that the girl has completed her eleventh year, and that the gurdian conscientiously believes that the tenets of the religion which the girl professes enjoin that the girl should not be kept unmarried any longer.

STATEMENT OF OBJECTS AND REASONS.

1. The object of the Bill is two-fold. The main object, by declaring invalid the marriages of girls below 12 years of age, is to put a stop to such girls becoming widows. The second object, by laying down the minimum marriageable ages of boys and girls, is to prevent, so far as may be, their physical and moral deterioration by removing a principal obstacle to their physical and mental development.

2. According to the Census Report of 1921 A.D., there were in that year 612 Hindu widows who were less than one year old, 2,024 who were under 5 years, 97,857 who were under 10 years, and 332,024 who were under 15 years of age. The deplorable feature of the situation, however, is that the majority of these child widows are prevented by Hindu custom and usage from remarrying. Such a lamentable state of affairs exists in no country, civilised or uncivilised, in the world. And it is high time that the law came to the assistance of these helpless victims of social customs, which, whatever their origin or justification in old days, are admittedly out of date and are the source of untold misery and harm at the present time.

3. According to the Brahmanas, the most ancient and the most authoritative book containing the laws of the Hindus, the minimum marriageable age of a man is 24 and a woman 16. And if the welfare of the girl were the only consideration in fixing the age, the law should fix 16 as the minimum age for the valid marriage of a girl. But amongst the Hindus, there are people who hold the belief that a girl should not remain unmarried after she attains puberty. And as in this country, some girls attain puberty at an age as early as 12, the Bill fixes 12 as the minimum age for the valid marriage of a Hindu girl.

4. In order, however, to make the Bill acceptable to the most conservative Hindu opinion, provision is made in the Bill that for conscientious reasons the marriage of a Hindu girl would be permissible even when she is 11 years old. No Hindu Sastra enjoins marriage of a girl before she attains puberty, and the time has arrived and public opinion sufficiently developed, when the first step towards the accomplishment of the social reform so necessary for the removal of a great injustice to its helpless victims and so essential to the vital interests of a large part of humanity, should be taken, by enacting a law declaring invalid the marriages of girls below 11 years of age.

5. With regard to boys, the Sastras do not enjoin marriage at a particular age. Thoughtful public opinion amongst the Hindus would fix 18 as the minimum marriageable age for a boy. But as some classes of the Hindus would regard such legislation as too drastic, the Bill takes the line of least resistance by providing 15 years as the age below which the marriage of a Hindu boy shall be invalid. Even in England, where child marriages are unknown and early marriages are exceptions, it has been found necessary to fix the ages below which boys and girls may not marry.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February, 1927:—

LEGISLATIVE ASSEMBLY BILL No. 23 OF 1927.

A Bill to limit the interest charged on loans of various kinds in British India, and to bring the law in conformity to the needs of the people.

WHEREAS it is expedient to limit the interest charged on loans of various kinds in British India, and to bring the law in conformity to the needs of the people; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Interest Act, 19 .

(*2*) It extends to the whole of British India.

(*3*) It shall come into force on.........

Amount of interest.

2. No creditor, whether of a secured or unsecured loan, shall be entitled to recover interest, either payable at one time or by instalments, exceeding the principal amount originally lent or due at the date of suit, whichever is less.

Powers of Court to grant relief in case of excessive interest.

3. Notwithstanding anything hereinbefore said, where in any suit to which this Act applies, whether heard *ex parte* or otherwise, the Court has reason to believe—

(*a*) that the interest is excessive, and

(*b*) that the transaction was, as between the parties thereto, substantially unfair,

the Court may exercise all or any of the following powers, namely, may—

(*i*) reopen the transaction, take an account between the parties and relieve the debtor of all liability in respect of any excessive interest;

(*ii*) notwithstanding any agreement purporting to close previous dealings and to create a new obligation, reopen any account already taken between them and relieve the debtor of all liability in respect of any excessive interest and, if anything has been paid or allowed in respect of such liability, order the creditor to repay any sum which it considers to be repayable in respect thereof;

(*iii*) set aside either wholly or in part or reverse or alter any security given or agreement made in respect of any loan, and if the creditor has parted with the security, order him to indemnify the debtor in such manner and to such extent as it may deem fit.

Principal in case of bonds executed for arrears

4. In the case of a bond executed for arrears of principal and interest due on a prior bond, the principal for purposes of this Act is the principal of the prior bond.

Savings

5. This Act shall not apply to usufructuary mortgages.

Repeals.

6. Provisions of other laws and regulations, so far as they are inconsistent with the provisions of this Act, are hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

The Bill is designed to prevent the accumulation of interest for long periods and thereby save many a debtor from the clutches of covetous and clever creditors.

There is a rule in Hindu Law which is called *Damdoopat*. It is in operation in the Bombay Presidency, Berar and the town of Calcutta, but it is limited in its scope and is applicable only to Hindus. This rule cannot be taken as a purely religious law of the Hindu community; it is laid down only to safeguard the debtors' interests as the Hindu Law sanctions the taking of interest on loans. The Muslim *Shariat* has forbidden to take interests at all, and so there could be no occasion for such emergency. Under the circumstances of the heterogenous society of India, it is quite justifiable and necessary that the present Bill be passed for the benefit of a debtor irrespective of the caste, creed and colour. The present Bill is wider in its scope and is more in conformity to the incessant demands and needs of the people of India, and the creditor will not be able to ruin his debtor with his waiting game.

The words "by instalments" in clause 2 are added in order to safeguard against the contrivance on the part of the creditors to nullify the effect of the provisions of the Bill by recovering interest on a system of instalments. The clause 3 is embodied to prevent the creditors from making injudicious bargains and is taken from the Usurious Loans Act of 1918.

The Interest Act of 1839 (Act XXXII) and the Usury Repeals Act of 1855 (XXVIII), which are absolutely inconsistent with both the Hindu and Muhammadan Laws on the subject, were passed at a time when the Councils were devoid of Indian representation by their own people and have proved ruinous.

The Usurious Loans Act of 1918 although it gives power to Courts to curtail the rate of interest under certain circumstances and which is also not exercised duly yet provides no remedy to stop accumulation beyond a certain limit.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 18th March 1927.

Summary.—During the week light and scattered showers fell over the greater part of the Presidency. Ploughing of lands for jute and other autumn crops and sowings in East and North Bengal districts are progressing favourably. Harvesting of spring crops continues. Outlook of standing crops is generally fair but in the district of Rajshahi the prospects of mango crops are reported to be bad. The average price of common rice for the province has risen by about 0·30 per cent. as compared with that of the previous week.

Calcutta.

No. 1134M.—The 23rd March 1927.—In exercise of the powers conferred by sub-section (*1*) of section 9 of the Calcutta Municipal Act, 1923 (Bengal Act III of 1923), the Government of Bengal (Ministry of Local Self-Government) are pleased to prescribe the following procedure for the election of Aldermen of the Corporation of Calcutta :—

1. A meeting of the elected and appointed Councillors of the Corporation of Calcutta shall be summoned by the Executive Officer of the Corporation to elect five Aldermen under section 9 of the Calcutta Municipal Act, 1923.

2. The meeting shall be held at 4-30 P.M. at the Central Municipal Office on a date appointed by the Executive Officer of the Corporation, which shall not be later than the eleventh day after the date of the publication of the names of the Councillors appointed under section 5 (*b*) of the Calcutta Municipal Act, 1923. A week's notice of the meeting shall be issued to all Councillors.

3. The presence of at least 15 Councillors shall be necessary to constitute a meeting for the purpose of this election.

4. The Councillors present shall elect in the manner provided in the rules of business for Standing Committees of the Corporation of Calcutta one of their number (hereinafter referred to as the President) to preside at the meeting.

5. Nomination of candidates for election as Aldermen shall be in writing in the annexed form and shall be signed by the proposer and seconder who must be Councillors and also by the candidate. All nomination papers must be sent so as to reach the Secretary to the Corporation not later than 11 A.M. on the fourth day before the date of the meeting.

6. Nomination papers shall be supplied by the Secretary to the Corporation to any Councillor applying therefor.

7. Each nomination paper shall contain one nomination only, but any Councillor may nominate five, but not more than five, candidates for election as Aldermen by means of separate nomination papers. If any Councillor nominates more than five candidates all the nominations by that Councillor shall be void.

8. The nomination papers shall be scrutinized on the date following the last date for filing nomination papers by the Secretary to the Corporation who shall reject any nomination paper in respect of which there has been any contravention of the procedure herein prescribed.

9 The Secretary shall then cause ballot papers to be prepared containing the names, arranged in alphabetical order, of all candidates duly nominated for election as Aldermen. The President shall read out these names at the meeting and if the number of candidates so nominated be not more than five or if the number be reduced to five by the withdrawal at the meeting of any of the candidates nominated for election, he shall forthwith declare these five candidates to be elected.

10. If the number of candidates for whom valid nominations are received be less than five, the President shall adjourn the meeting and forthwith report the fact to the Executive Officer of the Corporation who shall thereupon summon, as early as possible, a fresh meeting and the procedure for filing and scrutiny of nomination papers, herein prescribed, shall apply as nearly as may be except that fresh nominations for candidates already duly nominated shall not be necessary.

11. If there be more than five candidates duly nominated the President shall call upon the Councillors present to record their votes.

12. Voting shall be by ballot. Each Councillor shall have not more than five votes. No Councillor shall give more than one vote to any one candidate.

13. The Councillors shall place on the ballot paper a cross against the name or names of the candidate or candidates for whom he votes, and shall hand the ballot paper to the President.

14. The President shall be entitled to vote.

15. The President shall, as soon as the ballot papers have been delivered to him, cause the votes recorded for each candidate to be counted. He shall reject any ballot paper if—

(a) no vote is recorded thereon in the manner required ;

(b) the number of votes recorded thereon exceeds the number of Aldermen to be elected ;

(c) it is wholly void for uncertainty ;

(d) it bears any mark by which the voter can be identified.

If in any ballot paper one or more than one vote, but not all the votes recorded, be void for uncertainty the President shall reject such votes only as are so void.

16. The five candidates to whom the largest number of votes has been given shall be declared by the President to be, and shall thereupon be, elected.

17. Where an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of those candidates to be declared elected the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn at the meeting in such manner as the President shall determine.

18. The ballot papers shall be made over by the President to the Secretary to the Corporation, and shall thereafter be kept for three months in the general record-room of the Central Municipal Office of the Corporation unless their retention for a longer period is otherwise ordered.

Form of nomination.

1. Name of nominee.
2. Profession, trade, business, occupation, rank, title, if any.
3. Address.
4. Age.
5. Signature of proposer.
6. Signature of seconder.

I signify my assent to this nomination.

No. 1194M.—The 24th March 1927.—In exercise of the power conferred by section 27 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Government of Bengal (Ministry of Local Self-Government) are pleased to appoint Shaik Belat Ali Mondal as a Commissioner of the Rajpur Municipality, in the district of the 24-Parganas, *vice* Munshi Roshan Ali, resigned.

Minister-in-charge : The Hon'ble Hadji Mr. A. K. Abu Ahmed Khan Ghuznavi.

No. 1198L. S.-G.—The 24th March 1927.—In exercise of the powers conferred by clauses (i) and (f) of section 138 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following amendment in the rules published with notification No. 2158L. S.-G., dated the 5th September 1918, as subsequently amended.

Amendment.

For rule 116 the following rule shall be *substituted*, namely :—

"116. (1) Members of District and Local Boards are entitled to charge travelling allowance and halting allowance under this rule for journeys performed for carrying out

the objects of the Bengal Local Self-Government Act of 1885, only when such journeys are performed for attending meetings of District or Local Boards or of committees or sub-committees thereof or when such journeys are undertaken in pursuance of a resolution of a District or Local Board at a meeting or at the request of the Chairman in writing.

(2) Members of District and Local Boards, who are not Government officers, and who do not hold the post of Chairman or Vice-Chairman, shall be entitled to draw from the District Fund travelling allowance at the same rates as are admissible to Government officers of the second class. They are entitled to mileage for journey by road or boat, although the distance travelled does not exceed 20 miles, but are not entitled to any allowance for journeys to places within a radius of five miles from the starting point. For journeys performed for attending meetings of District or Local Boards or of committees or sub-committees thereof such members shall, when the journey is made from any place within the district, be entitled to travelling allowance from the places at which the journey is actually commenced, and, when the journey is made from any place outside the district, to travelling allowance only for the portion of the journey which is performed within the district:

Provided that the travelling allowance shall, in no case, exceed what would be admissible had the journey been made from the members' usual place of residence within the district;

Provided further that for attending meetings of the District or Local Board or for attending meetings of committees or sub-committees thereof, which may continue on two or more consecutive days, members shall be entitled to mileage only for one journey to the place of meeting and back.

NOTE.—(i) The mileage allowance admissible to a member, when travelling by railway or steamer, is one and three-quarters fares of the class in which he is entitled to accommodation, except in the case of journeys under 75 miles and an absence from his usual place of residence of more than 24 hours, both conditions to be fulfilled, when double fare will be allowed.

(ii) The 'usual place of residence' means the place where a member ordinarily resides for at least six months in the year.

(3) Members referred to in sub-rule (2) are not entitled to any allowance for halting: Provided that such an allowance shall be admissible at the maximum rate allowable to Government officers of the second class for a period not exceeding two days when a halt is made for the purpose of attending an adjourned meeting or a meeting of a committee or sub-committee or of attending a meeting of the District or Local Board after a committee or sub-committee meeting.

(4) No member shall charge mileage allowance and halting allowance for the same day.

(5) Members of the District and Local Boards, who are elected and who are Government officers, and who do not hold the post of Chairman or Vice-Chairman, shall be entitled to draw from the District Fund the travelling allowance admissible to non-official members.

(6) Members of District and Local Boards, who are appointed and who are Government officers, and who do not hold the post of Chairman and Vice-Chairman, shall be entitled to draw from provincial revenues the travelling allowance admissible to them as Government officers.

NOTE.—The term "Government officers" includes managers of estates under the Court of Wards who are appointed by Government but paid from the estates and whose service counts for pension under the rules of the Civil Service Regulations."

Minister-in-charge : The Hon'ble Hadji Mr. A. K. Abu Ahmed Khan Ghuznavi.

Bankura.

No. 1208M.—The 24th March 1927.—The following draft of an order which the Government of Bengal (Ministry of Local Self-Government) intend to make under section 85 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 1st June 1927, and any objection or suggestion which may be received by the undersigned through the District Magistrate, Bankura, and the Commissioner of the Burdwan Division before that date will be duly considered:—

Draft.

In exercise of the power conferred by section 85 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Government of Bengal (Ministry of Local Self-Government)

are pleased to sanction the imposition by the Commissioners of the Bankura Municipality of a rate on the annual value of holdings situated within the said municipality in lieu of the tax on persons with effect from the 1st April 1928.

Burdwan.

No. 664P.H.—The 28th March 1927.—Whereas the Government of Bengal (Ministry of Local Self-Government) are satisfied that the area known as the Asansol Mining Settlement, in the Asansol subdivision of the district of Burdwan, is threatened with an outbreak of small-pox:

Now, therefore, in exercise of the power conferred by section 2A, read with sub-section (*1*) of section 2 of the Epidemic Diseases Act, 1897 (III of 1897), the Government of Bengal (Ministry of Local Self-Government) are pleased to prescribe the following temporary regulations for the prevention and control of small-pox, and for the medical inspection, insolation, observation and surveillance of persons suffering from, or suspected of being infected with, small-pox in the said area until the 31st December 1927:—

TEMPORARY REGULATIONS FOR THE PREVENTION AND CONTROL OF SMALL-POX IN THE ASANSOL MINING SETTLEMENT.

1. In these regulations, unless there is anything repugnant in the subject or context,—

(*a*) the expression "Chief Sanitary Officer" shall mean the Chief Sanitary Officer appointed by the Local Government for mining settlements under section 5 of the Bengal Mining Settlements Act, 1912 (Bengal Act II of 1912);
(*b*) the expressions "Agent", "employed", "mine" and "owner" shall have the same meaning as in section 3 of the Indian Mines Act, 1901 (VIII of 1901);
(*c*) the expression "Board" shall mean the Mines Board of Health of Asansol;
(*d*) the expression "District Magistrate" shall have the same meaning as in section 101 of the Code of Criminal Procedure (Act V of 1898);
(*e*) the expression "Small-pox" shall mean any disease accompanied by an eruption of vesicles or pustules.

NOTICES.

2. Whenever any land is held jointly by two or more persons, whether as owners or occupiers of that land, such persons shall be held jointly and severally liable for carrying out any measure ordered in a notice under these regulations, and the names of any one or more of such joint-holders may be entered upon such notice at the discretion of the Chief Sanitary Officer, and the Chief Sanitary Officer shall not be bound to enter the names of all the joint-holders in the notice.

3. If in any case the Chief Sanitary Officer considers that the issue of a notice is likely to lead to such an amount of delay as might facilitate the spread of small-pox, he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter as soon as possible issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the Chief Sanitary Officer has, by a notice issued under any of these regulations, required to be carrried out, be not carried out to his satisfaction within the time stated in the notice, the Chief Sanitary Officer shall be entitled to carry out the measure.

COST AND COMPENSATION.

5. (1) Expenses incurred in carrying out any work required to be done in pursuance of an order issued under these regulations shall be paid by the Board except in cases where the order requires action to be taken by any person as regards property in his possession, in which cases the expenses shall be paid by that person:

Provided that where the conditions, which led the Chief Sanitary Officer to pass such an order, are not attributable to the act or default of the person in possession of the property, the Board may pay to such person the whole or part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the Chief Sanitary Officer in carrying out the measures under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order issued under these regulations within the time specified in the order or to the satisfaction of the Chief Sanitary Officer.

THE LOCATION OF DISEASES.

7. Every owner, agent or manager of a mine shall supply to the Chief Sanitary Officer such periodical returns of births and deaths and of the persons residing upon their property as he may call upon them to furnish.

8. The nearest relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, some male inmate of the house, in which a case of small-pox shall have occurred, shall, within 24 hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing or by means of the chaukidar or other village watchman to the Chief Sanitary Officer or other officer of the Mines Board of Health.

8A. (1) Every medical practitioner called in to attend upon any case of small-pox shall forthwith give notice of the case by a special messenger to the nearest member of the outdoor stad of the Mines Board of Health and to the Chief Sanitary Officer by post and the cost in each case shall be defrayed by the Board.

(2) The doctor in charge of a hospital within the Mining Settlement shall forthwith give notice of any case of small-pox admitted into the hospital by a special messenger to the nearest member of the outdoor staff of the Mines Board of Health and to the Chief Sanitary Officer by post and the cost in each case shall be defrayed by the Board.

9. Every owner, agent or manager of a mine shall supply to the Chief Sanitary Officer such periodical returns of cases of sickness as he may from time to time call upon them to furnish.

10. Every owner, agent or manager of a mino shall furnish to the Chief Sanitary Officer immediate information regarding the occurrence of any case or suspected case of small-pox occurring in a building in the possession of or under the control of such owner, agent or manager.

11. The Board may employ a suitable staff for the purpose of making enquiries as to the existence of any case of small-pox.

12. The Chief Sanitary Officer may examine any person who is, or is suspected to be suffering from small-pox or who, in his opinion, may be infected with or likely to spread small-pox.

ISOLATION AND SEGREGATION AND EVACUATION OF HOUSES.

13. When the Chief Sanitary Officer considers that the isolation of any person suffering from small-pox is a precaution necessary for the protection of the neighbouring population, he may order such person to be isolated in such a manner and for such a time as may be approved by the Chief Sanitary Officer.

14. When the Chief Sanitary Officer considers that the isolation of any person suffering from small-pox and residing in a building in the possession of under the control of the owner, agent or manager of a colliery, is necessary, he may order the owner, agent or manager of such colliery to isolate such person in such a manner and for such a time as may be approved of by the Chief Sanitary Officer.

15. The Chief Sanitary Officer may order that any person who has been in contact with a person found to be suffering from small-pox shall be segregated for a period not exceeding ten days in a manner and in a place to be approved by the Chief Sanitary Officer.

16. The Chief Sanitary Officer may order that any person who is residing in any building in the possession of or under the control of the owner, agent or manager of a colliery, and who has been in contact with any person found to be suffering from small-pox, shall be segregated by the owner, agent or manager of such colliery for a period not exceeding 10 days.

17. The Chief Sanitary Officer may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

18. The Chief Sanitary Officer may order the owner, agent or manager of any colliery to take steps to have vaccinated or re-vaccinated within a specified time any person residing in any building in the possession of or under the control of the owner, agent or manager of such colliery, who has been in contact with any person found to be suffering from small-pox.

19. No person shall enter any place wherein persons are isolated or segregated under regulation 13 or 14, without the permission of the Chief Sanitary Officer.

20. The Board shall provide, free of charge, suitable places with necessary attendants, diet, food, etc., for persons isolated or segregated by order of the Chief Sanitary Officer, and the Chief Sanitary Officer may certify places provided by private individuals as being fit for the purpose of isolation or segregation of persons under regulation 13 or 14 as the case may be.

21. (1) When the Chief Sanitary Officer under regulation 13 or 14 has ordered the isolation or segregation of any person residing upon any colliery lands, the Chief Sanitary Officer may notify the fact in writing to the owner, agent or manager of such colliery.

(2) If such person disobeys the order, such owner, agent or manager shall furnish to the Chief Sanitary Officer immediate intimation of the movements of that person.

22. No person who is or has been suffering from small-pox shall leave the place where he has been staying until he has received from the Chief Sanitary Officer written permission to do so.

23. The Chief Sanitary Officer may, by a notice in writing, (1) require any person to carry out or allow to be carried out by such agency as the Chief Sanitary Officer may appoint, within a time to be stated in the order, such measures for the disinfection or evacuation of his dwelling-house, or for the disinfection or destruction of any of his personal effects, as the Chief Sanitary Officer may consider necessary; and (2) direct any owner, agent or manager of a mine, or any landholder or his agent to carry out any such measures on behalf of any person resident or staying upon the land belonging to the owner or landholder.

24. Every owner, agent or manager shall make such arrangements for the immediate disinfection of infected permises and personal effects and of evacuation and excreta of persons employed by the colliery and resident in a building owned by the colliery who are suffering or suspected to be suffering from small-pox as the Chief Sanitary Officer may from time to time direct by general or special order.

25. The Board shall from time to time provide, without any charge to the person on whom an order is passed under regulation 23 (*1*), temporary shelter or house accommodation with necessary attendants for the members of any family who have been compelled to evacuate their dwellings under the said regulation.

26. The Chief Sanitary Officer may order any owner, agent or manager of a mine to provide such hospitals, temporary shelters or house accommodation within such a time as the Chief Sanitary Officer may approve for the purpose of isolating, segregating or accommodating, under regulations 13, 14, 15, 16 and 25, persons residings in any building in the possession of or under the control of such owner, agent or manager of a colliery.

MISCELLANEOUS POWERS.

27. The Chief Sanitary Officer may (1) prohibit the committal or continuance of any nuisance, or (2) require the person causing any nuisance or the person occupying the premises on which any nuisance exists to remove such nuisance.

Explanation.—"Nuisance" means anything which, in the opinion of the Chief Sanitary Officer, is dangerous to health or offensive to the neighbourhood and is likely to spread or to cause the outbreak of small-pox.

28. The Chief Sanitary Officer may, during the prevalence of any outbreak of small-pox, order that any market, shop or other public place shall remain closed for such time as may appear to him to be necessary and may forbid the holding of any fair, *mela* or other gathering to which people from several villages commonly or periodically resort.

29. The Chief Sanitary Officer may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as limewashing of houses, cleaning of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

30. The Chief Sanitary Officer may prohibit persons from retaining or selling clothes taken from the bodies of persons who have died of small-pox and may cause any such clothes to be destroyed.

31. The Chief Sanitary Officer may direct that no one shall dispose of any corpse except by burning or burial, without his written permission.

32. The Chief Sanitary Officer may approve or may provide and maintain burning or burial grounds and may, by written order, direct, either generally or specially in respect to any specified area, that corpses shall not be burned or buried at places other than those so approved, provided or maintained by him for the purpose.

33. The Chief Sanitary Officer may direct that any one burning or causing to be burnt any corpse, which, in the opinion of the Chief Sanitary Officer, is likely to spread small-pox, shall cause the same to be completely reduced to ashes, and shall likewise cause the clothes or other articles brought with such corpse to be reduced to ashes.

34. The Chief Sanitary Officer may direct that no person shall bury or cause to be buried any corpse, which, in the opinion of the Chief Sanitary Officer, is likely to spread small-pox, in a grave not constructed of masonry, which shall be less than 6 feet deep.

35. The Chief Sanitary Officer may order that no *dome* or other servant of the Board employed for the disposal of corpses shall withdraw from his duties without the permission of the Chief Sanitary Officer unless such *dome* or other servant of the Board has given notice in writing not less than one month previously of his intention so to withdraw.

36. The Chief Sanitary Officer or any person authorized by him in that behalf may—

(1) seize and destroy an article of food or drink, and

(2) seize and dispose of any corpse,

which, in the opinion of the Chief Sanitary Officer, is infected with, or is likely to spread, small-pox.

37. Every owner, agent or manager of a mine shall make such arrangements for the accommodation and treatment of his employees suffering from small-pox as the Chief Sanitary Officer may direct, provided that mines with an output of less than 5,000 tons per month and not more than two miles apart may, with the consent of the said officer, combine for the purpose of making such arrangements.

38. Every owner, agent or manager of a mine in which are employed persons residing or staying in the mining settlement, and every owner or occupier of any land or premises within such mining settlement, shall furnish the Chief Sanitary Officer or any officer of the Board authorized by him in that behalf, with all reasonable facilities for carrying out any measures or making any entry, inspection, examination, or enquiry under these regulations.

39. (1) The Chief Sanitary Officer or any other Sanitary Officer of the Board authorized by him in that behalf, making any enquiry authorized by these regulations may, by an order in writing, require the attendance before himself of any person being within the limits of a mining settlement or part of a mining settlement for which such officer has been appointed who appears to be acquainted with the circumstances of a case or suspected case of small-pox and such person shall attend as so required.

(2) When the person summoned to appear under paragraph (1) is a female who, by the custom of the country, does not appear in public, suitable precautions shall be taken to respect the said custom.

40. (1) The Chief Sanitary Officer or any other Sanitary Officer of the Board authorized by him in that behalf, making any enquiry authorized by these regulations, may examine orally any person supposed to be acquainted with the facts and circumstances of a case or suspected case of a small-pox.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public, the enquiring officer shall take the statement of such female under such conditions as shall admit of due respect to the said custom.

(3) Such person shall be bound to answer all questions relating to such case put to him by such officer, other than questions the answers to which would have a tendency to expose him to any criminal charge.

41. Every owner, agent or manager of a colliery shall maintain a register of all premises situated on such colliery and ordinarily used or intended to be used for housing persons employed on or about such colliery, together with such further particulars as the Chief Sanitary Officer may from time to time direct by general or special order.

42. The Chief Sanitary Officer or any other Sanitary Officer of the Board authorised by him in that behalf may, with such assistants (if any) as he thinks fit, enter upon any land or mine or, after two hours' notice in writing, any premises or building used for human habitation at all reasonable times by day or by night, for the purpose of carrying out any measure or making any enquiries authorised by these regulations.

AUDIT.

NOTIFICATIONS.

No. 1769F.—The 21st March 1927.—In exercise of the powers conferred by rule 44 of the Fundamental Rules, the Governor in Council and the Governor acting with his Ministers are pleased to make the following rules to regulate the grant of travelling allowance to enable European Government servants and their families to have access to British medical advice :—

Rules.

1. **Definitions.**—In these rules—

(*a*) "adult" means a person 18 years of age or over ;
(*b*) "child" means a person under 18 years of age ;
(*c*) "European Government servant" means a Government servant whose domicile of origin, as defined in clauses 2 and 3 of the Schedule to the Fundamental Rules, is non-Asiatic ;
(*d*) "family" means a Government servant's wife, and his legitimate children or step-children wholly dependent upon him.

2. Subject to the provisions of rules 5 and 6 below, a European Government servant serving in a station where there is no British Medical Officer may draw travelling allowance to the extent prescribed in rule 4 below, on account of a journey performed by himself or by any member of his family residing with him to and from the nearest station at which there is a British Medical Officer, for the purpose of receiving medical attention or advice from such British Medical Officer.

3. If such British Medical Officer or a British Medical Officer serving at the Government servant's own station certifies in writing that the case is of such a serious or special nature that he is not able or willing to treat it and that the patient should proceed for treatment to some other specified station in Bengal, travelling allowance to the extent prescribed in rule 4 may be drawn for the journey to and from such station.

4. The amount of travelling allowance admissible for any journey performed under rule 2 or 3 is—

(*a*) for that part of the journey performed by public conveyance, the fare, if any, actually due and paid on account of the patient together with the fare actually paid on account of not more than one attendant on the patient.

NOTE.—The fares recoverable under this clause are fares of a class not higher than that by which the Government servant himself is entitled to travel on duty ;

(*b*) for that part of the journey as performed otherwise than by public conveyance, actual travelling expenses limited to—

(*i*) the amount arrived at by multiplying the mileage allowance rate admissible to the Government servant by the number of miles so travelled which could not have been travelled by public conveyance *plus*
(*ii*) the amount admissible under clause (*a*) in respect of so much of such journey as could have been performed by public conveyance ;

provided that no claim will be admitted for expenditure incurred on account of any person accompanying an adult patient unless it is supported by a certificate in Form "A" appended to these rules signed by the British Medical Officer consulted to the effect that it was necessary for the proper care of the patient that he or she should be accompanied by an attendant on such journey.

5. Every claim for travelling allowance under these rules shall be supported by a certificate in Form "B" appended to these rules signed by the Government servant making the claim.

6. Every claim for travelling allowance under rule 2 of these rules shall be presented in a separate bill and shall be forwarded through the Government servant's controlling officer, if any, to the British Medical Officer to whom the patient travelled. If such British Medical Officer certifies in Form "A" appended to these rules that the undertaking of the journey was, in his considered opinion, justified, he shall return the bill with his certificate direct to the Government servant presenting the claim. Otherwise he shall forward the bill with his certificate to the contrary effect to the Local Government in the Finance Department, which after such enquiry, if any, as it may see fit to make, shall either reject the claim or admit it in whole or in part.

7. A British Medical Officer under the administrative control of the Local Government proceeding under proper authority to attend upon a Government servant of non-Asiatic domicile serving in a station where there is no British Medical Officer or upon any member of such Government servant's family residing with him, is entitled to travelling allowance as for a journey on tour.

Any objection, suggestion or representation which may be received by the Secretary to the Government of Bengal, Commerce Department, up to the 19th June 1927, from any person, company on local authority in respect of Babu Bhabani Prosad Shaha's application will be duly considered by Government:—

THE PABNA ELECTRIC SUPPLY LICENCE, 1927.

Notice is hereby given that the undersigned has applied to the Government of Bengal for a Licence, under the Indian Electricity Act, 1910, for the supply of electrical energy to the public within the Municipal area of Pabna in the district of Pabna for the purposes and upon and subject to the terms and conditions set forth in the draft licence of which the following is a copy:—

(DRAFT LICENSE.)

THE PABNA ELECTRIC SUPPLY LICENCE, 1927.

Licence for the supply of electrical energy granted by the Government of Bengal under the Indian Electricity Act, 1910.

Licence is hereby granted to Babu Bhabani Prosad Shaha, Merchant and Proprietor, Shaha Brothers Hosiery Factory, Pabna, carrying on business under the name and style of "The Pabna Electric Supply", to supply electrical energy in the area with the powers and upon the terms and conditions all specified below:—

Short title.

1. The licence may be cited as "The Pabna Electric Supply Licence, 1927".

Interpretation.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or any statutory modifications thereof or by the rules thereunder, meanings, are assigned, shall have in this licence the same respective meanings, provided that in this licence:—

(*a*) The Act shall mean the Indian Electricity Act, 1910, with the statutory modifications thereof,

(*b*) The expression "The Licensee" shall mean and include the said Babu Bhabani Prosad Shaha, carrying on business under the name and style of "The Pabna Electric Supply" and his permitted assigns, and

(*c*) The expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Commerce Department and by the applicant Babu Bhabani Prosad Shaha under the name and style of "The Pabna Electric Supply".

Security.

3. The period within which under clause 1 (*a*) of the Schedule to the Act, the licensee shall show to the satisfaction of the Government that he is in a position fully and efficiently to discharge the duties and obligations imposed upon him by this licence throughout the area of supply, shall be six months after the notification of the grant of the licence and the period within which under clause 1 (*b*) of the Schedule to the Act, the licensee shall deposit or secure such sum as therein mentioned, and the sum to be deposited or secured, shall, unless otherwise ordered by the Government under that clause, be six months after the notification of the grant of the licence and Rs. 1,000 (one thousand) respectively.

Area of Supply.

4. The area above referred to within which the supply of energy is authorised by this licence (the area of supply under the Act) is the whole of the area contained within the municipal limits of Pabna and bounded as follows:—

5. The licensee will erect the generating station within the area covered by the licence.

Limits within which the supply of Energy is to be compulsory.

6. (*i*) The works to be executed to the satisfaction of the Government under clause IV of the Schedule to the Act are the Feeders, Distributors and Mains in the public streets within the Municipal boundary of the town of Pabna of which a list is appended below, the generating station mentioned in clause 5, and all other works necessary for the commencement of the supply of energy to consumers.

(*ii*) If the licensee fails to comply with the provisions of sub-clause (*1*), the licence may be revoked.

(*iii*) The licensee shall submit reports every six months from the commencement of this licence to the Government until the completion of the compulsory works specifying all steps taken and the progress made in carrying into effect the licence.

System of Supply.

7. (*a*) The system of supply shall be a low pressure continuous current two wire supply at a pressure at the consumers' terminals of 220 volts between the wires.

Provided always it shall be lawful for the Government from time to time to issue with the due regard to the expense involved and to the effect upon the commercial prospects of the undertaking, regulations dealing with the above system of supply or to authorise other systems of supply to be adopted for the purpose of this licence.

Limits of price to be charged in respect of the supply of Energy.

(*b*) The prices to be charged by the licensee for energy supplied by him shall not exceed the following maxima, namely :—

(*i*) Domestic supply to public, eight annas per unit.

(*ii*) Power supply, six annas per unit.

(*iii*) Street lighting, eight annas per unit, or in the case of a method of charge approved by the Government in accordance with sub-sections (*3*) and (*4*) of section 23 of the Act, such maximum as the Government may fix on approving the matter.

The licensee may levy a maximum charge of rupees five per quarter (excluding meter rent) even when energy to that value has not been consumed.

Breaking up of streets, railways, tramways and crossing waterways.

8. The licensee shall have power to open and break up the soil and pavement of all streets not repairable by Government or a local authority situated within the area of supply. He shall have power to cross all waterways and to open and break up the soil and pavement as far as situated within the area of supply in accordance with such conditions as the Government may impose.

Purchase of undertaking.

9. (1) The option of purchase given by sub-section (*1*) of section 7 of the Act, shall first be exercisable on the expiration of fifty years from the date of the notification of this licence and on the expiration of every subsequent period of twenty years. The percentage to be added on account of compulsory purchase to the value (as determined in accordance with and for the purpose of sub-section (*1*) of section 7 of the Act) of the lands, buildings, works, materials and plant of the licensee shall, in accordance with the second proviso of the said sub-section, be twenty per cent.

(2) In accordance with clause (*d*) (*ii*) of sub section (*2*) of section 3 of the Act, it is hereby declared that the generating station to be used in connection with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or section 7.

No. 2188Com.—The 24th March 1927.—In exercise of the powers conferred by section 29 of the Indian Trade Unions Act, 1926 (XVI of 1926), read with section 22 of the General Clauses Act, 1897 (X of 1897), the Governor in Council is pleased to make the following regulations :—

Regulations.

1. These regulations may be called the Trade Union Regulations, 1927.

2. In these regulations—

(*a*) "the Act" means the Indian Trade Unions Act, 1926 ;

(*b*) "Form" means a form appended to these regulations ; and

(*c*) "section" means a section of the Act.

3. Every application for registration of a Trade Union shall be made in Form A.

4. The register of Trade Unions referred to in section 8 shall be maintained in Form B.

5. The certificate of registration issued by the Registrar under section 9 shall be in Form C.

6. The application of a Trade Union for withdrawal or cancellation of a certificate of registration by the Registrar shall be in Form D. The application shall be verified by the President or Secretary of the Trade Union.

7. The Registrar on receiving an application for the cancellation of registration shall, before granting the application, satisfy himself that the withdrawal or cancellation of registration was approved by a general meeting of the Trade Union, or if it was not so approved that it has the approval of the majority of the members of the Trade Union. For this purpose he may call for such further particulars as he may deem necessary and may examine any officer of the Union.

8. Notice before withdrawal or cancellation of certificate shall be given in Form E. Such notice shall be sent to the Secretary of the Trade Union desiring withdrawal or cancellation of registration, and published in at least one daily newspaper circulating in the province on which the Trade Union is registered.

9. The withdrawal or cancellation of a certificate shall be in Form F.

10. (*1*) The Registrar, on receipt of a notice of removal of the registered office to another province, will forward to the Registrar of the province to which the head office of the Trade Union has been transferred, a copy of all the entries contained in the register prescribed by regulation 4 of these regulations.

(*2*) The Registrar of the province to which the head office of the Trade Union has been transferred shall thereupon enter in his register the particulars relating the Trade Union and shall notify the fact that he has done so to the Secretary of the Trade Union.

11. The fee payable for the registration of a Trade Union shall be Rs. 5.

12. An alteration of the rules of a Trade Union may be either—

(*a*) a partial alteration, consisting of the addition of a new rule or part of a rule or rules to the existing rules, or of the substitution of a new rule or part of a rule or rules for any of the existing rules, or of a rescission of any of the existing rules or any part thereof without any substitution or of more than one or all of those modes ; or,

(*b*) a complete alteration consisting of the substitution of an entire set of rules for the existing set of rules.

13. (*a*) Each application for a complete or partial alteration of rules must be accompanied by a printed copy of the existing rules of the Trade Union and two copies of the proposed alterations, together with a copy of the resolution of the Trade Union, signed by the President and the Secretary, in which it was decided to apply for registration of a complete/partial alteration of rules.

(*b*) In the case of a complete alteration of rules, Schedule II of Form A of these regulations must be enclosed, duly filled in, showing the provision made in the altered rules for the matters detailed in section 6 of the Act.

14. The certificate of registry of a partial or complete alteration of rules shall be in Form G.

15. The fee payable for the registration of a complete or partial alteration of rules shall be Re. 1 for each set of alterations made simultaneously.

16. Any appeal made under section 11 (*1*) of the Act must be filed within 60 days of the date on which the Registrar passed the order against which the appeal is made.

17. Where it is necessary for the Registrar, under section 27 (*2*), to distribute the funds of a Trade Union which has been dissolved, he shall divide the funds among the members on the books of the Trade Union at the time of dissolution in proportion to the amounts contributed by such members by way of subscription during their membership.

18. The annual return to be furnished under section 28 shall be submitted to the Registrar by the 31st day of July in each year and shall be in Form H.

19. (*1*) Save as provided in sub-clauses (*2*), (*3*), (*4*) and (*5*) of this regulation, the annual audit of the accounts of any registered Trade Union shall be conducted by an auditor authorized to audit the accounts of companies under section 144 (*1*) of the Indian Companies Act, 1913.

(*2*) Where the membership of a Trade Union did not at any time during the financial year exceed 2,500 the annual audit of the accounts may be conducted—

(*a*) by an examiner of local fund accounts,
(*b*) by any local fund auditor appointed by the Local Government, or
(*c*) by any person, who, having held an appointment under Government in any audit or accounts department, is in receipt of a pension of not less than Rs. 200 per mensem.

(*3*) Where the membership of a Trade Union did not at any time during the financial year exceed 750 the annual audit of the accounts may be conducted—

(*a*) by any two persons holding office as magistrates or judges or as members of any municipal council, district board, or legislative body, or
(*b*) by any person, who, having held an appointment under Government in any audit or accounts department is in receipt of a pension from Government of not less than Rs. 75 a month, or
(*c*) by any auditor appointed to conduct the audit of any co-operative societies by Government or by the Registrar of Co-operative Societies or by any provincial co-operative organization recognized by Government for this purpose.

(*4*) Where the membership of a Trade Union did not at any time during the financial year exceed 250, the annual audit of the accounts may be conducted by any two members of the Union.

(*5*) Where the Trade Union is a federation of unions, and the number of unions affiliated to it at any time during the financial year did not exceed 50, 15 or 5, respectively, the audit of the accounts of the federation may be conducted as if it had not at any time during the year had a membership of more than 2,500, 750 or 250, respectively.

20. Notwithstanding anything contained in regulation 19, no person who at any time during the year was entrusted with, or having any connection with the disposal of, any part of the funds or securities belonging to the Trade Union shall be eligible to audit the accounts of that Union.

21. The auditor or auditors appointed in accordance with the regulations shall be given access to all the books of the Trade Union and shall verify the annual return with the accounts and vouchers relating thereto and shall thereafter sign the auditor's declaration appended to Form H, indicating separately on that form under his signature or their signatures a statement showing in what respect he or they find the return to be incorrect, unvouched or not in accordance with the Act. The particulars given in this statement shall indicate—

(*a*) every payment which appears to be unauthorized by the rules of the Trade Union, or contrary to the provisions of the Act,
(*b*) the amount of any deficiency or loss which appears to have been incurred by the negligence or misconduct of any person,
(*c*) the amount of any sum which ought to have been but is not brought to account by any person.

22. The audit of the political fund of a registered Trade Union shall be carried out along with the audit of the general account of the Trade Union and by the same auditor or auditors.

23. (1) The register of Trade Unions maintained in accordance with regulation 4 shall be open to inspection by any person on payment of a fee of annas eight.

(2) Any documents in the possession of the Registrar received from a registered Trade Union may be inspected by any member of that Union on payment of a fee of annas eight for each document inspected.

(3) Documents shall be open to inspection every day on which the office of the Registrar is open and within such hours as may be fixed for this purpose by the Registrar.

SHIPPING.

New Delhi, the 17th March 1927.

No. 544-S. (8).—The following Order in Council, dated the 7th February 1927, providing for the recognition of the tonnage particulars shown in the Certificates of Registry or other national papers issued to Greek ships, is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE.

The 7th day of February 1927.

PRESENT :

The King's Most Excellent Majesty in Council.

WHEREAS by sub-section (*1*) of section 84 of the Merchant Shipping Act, 1894, it is provided that whenever it appears to His Majesty the King in Council that the tonnage regulations of the said Act have been adopted by any foreign country and are in force there, His Majesty in Council may order that the ships of that country shall, without being re-measured in His Majesty's Dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers, in the same manner, to the same extent and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship :

AND WHEREAS it appears to His Majesty that the tonnage regulations of the said Act have been adopted by the Government of Greece, and are now in force in that country :

NOW THEREFORE, His Majesty is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered as follows :—

(1) This order may be cited as "The Greek Tonnage Order, 1927".

(2) Greek ships, the certificates of registry or other national papers of which are dated on or after the 14th July 1909 (old style 1st July 1909), shall without being re-measured in His Majesty's Dominions, be deemed to be of the tonnage denoted in such certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

(3) The order in Council, dated the 14th day of August 1879, made under the provisions of the Merchant Shipping Act Amendment Act, 1862, with regard to the tonnage of ships of Greece is hereby revoked.

M. P. A. HANKEY.

ORDER.—Ordered that a copy of the resolution be published in the *Gazette of India.*

Post-Graduate Research Scholarships to be awarded in 1927.

NOTIFICATION.

Three Post-Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carsy on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, histrry, archæology, anthropology, etc., and the third scholarship will be awarded for research either in scientific or in literary subjects. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1927, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied, to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a college or other institution in Bengal the M. A. or M. Sc. Examination of the Calcutta or Dacca University or of having obtained some other equivalent or higher degree of either of these Universities in 1924 or 1925 or 1926. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work, with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Katihar-Godagari Branch of the Eastern Bengal Railway, in the district of Malda, will be put up to sale at 10 o'clock on 27th April 1927, at the Court of the Collector of Malda.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February, 1927:—

LEGISLATIVE ASSEMBLY BILL NO. 24 OF 1927.

A Bill further to amend the Societies Registration Act, 1860, for certain purposes.

WHEREAS it is expedient further to amend the Societies Registration Act, 1860, for certain purposes hereinafter appearing; It is hereby enacted as follows:— XXI of 1860.

Short title.

1. This Act may be called the Societies Registration (Amendment) Act, 192 .

Amendment of section 20, Act XXI of 1860.

2. In section 20 of the Societies Registration Act, 1860— XXI of 1860.

(*a*) after the words "the diffusion of useful knowledge" the words "the diffusion of political education" shall be inserted, and

(*b*) at the end the words "or for any other purpose of public utility" shall be added.

STATEMENT OF OBJECTS AND REASONS.

It is intended by this Bill to extend the scope of the Societies Registration Act, 1860, by making it applicable to some purposes which have been perhaps inadvertently omitted from section 20. It is believed that the Registrar of Societies under this Act has refused registration to a number of Societies or Associations who wished to be incorporated under the Act, on the ground that they were of a political character. In any case all doubt should be cleared up by the use of express words which may make such refusal impossible. There is no reason why the benefit of incorporation, and the legal status for all practical purposes conferred by such incorporation, should be denied to even political societies, inasmuch as the work and purpose of political education is certainly as useful and altruistic as any other mentioned in the Act. The wish for open registration and incorporation shown by any political institution should rather put a premium and not a discount upon the legal facilities which may be given to it. The present Act being enacted more than sixty years ago, political education may naturally have been then too negligible to be taken account of for the purposes of the Act. But there has been very considerable advance in this direction since then, and the antiquated provisions of the Act ought to be brought up to date.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 8th February, 1927 :—

COUNCIL OF STATE BILL No. 2 OF 1927.

A Bill further to amend the Bengal Tenancy Act, 1885, for a certain purpose.

WHEREAS it is expedient further to amend the Bengal Tenancy Act, 1885, for the purpose hereinafter appearing ; It is hereby enacted as follows :— VIII of 1885.

Short title.

1. This Act may be called the Bengal Tenancy (Amendment) Act, 1927.

Amendment of section 153, Act VIII of 1885.

2. In section 153 of the Bengal Tenancy Act, 1885, for the words "one hundred" and the word "fifty" the words "two hundred" and "one hundred", respectively, shall be substituted. VIII of 1885.

STATEMENT OF OBJECTS AND REASONS.

The Civil Justice Committee recommended in paragraph 10 of Chapter 48 of their report that the existing pecuniary limits of Rs. 50 in the case of munsifs and Rs. 100 in the case of Subordinate or District Judges in section 153 of the Bengal Tenancy Act, 1885, which restricts the right of appeal in rent suits should be raised to Rs. 100 and Rs. 200, respectively, subject to the maintenance of the present exceptions in cases where a question of title or rate of rent is concerned. Both the Government of Bengal and the Calcutta High Court who were consulted have accepted the Committee's recommendation and the Bill gives effect to it.

Central legislation is proposed in this case as the adoption of the proposal would affect the appellate jurisdiction which the High Court at Calcutta possesses, as under section 20 of the Bengal, Agra and Assam Civil Courts Act, 1887, read with section 153 of the Bengal Tenancy Act, an appeal lies to the High Court from any decree or order of a District Judge or Additional Judge in a suit for the recovery of rent in which the amount claimed exceeds Rs. 100.

C. ADDAMS-WILLIAMS,

Chief Engineer and Secretary to the Government of Bengal, Irrigation Department.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for February 1927.

I. **Character of the season.**—During the middle of the month light to moderate rainfall was almost general throughout the Presidency, the precipitation being above the average in 17 districts and below the normal elsewhere. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of summer rice and harvesting of early spring crops were almost finished and that of the late varieties was proceeding. Preparatory tillage for jute and other autumn crops was carried on under favourable conditions and sowings commenced in some East and North Bengal districts.

III. **State of standing crops.**—The condition of standing crops was generally fair except in some districts where the crops were affected a little by rain.

IV. **Prospects and probable outturn.**—A fair harvest for wheat and oilseed crops is anticipated.

V. **Damage to standing crops.**—Damage by rain to standing crops was reported from Burdwan, Bankura, Noakhali and Rangpur.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported to be fair. Sporadic cases of cattle-disease were, however, reported from ten districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the Presidency.

VIII. **Prices of food-grains.**—During the second half of the month the price of common rice of the cheapest quality rose in nine districts, fell in five and remained stationary in the rest of the Presidency. It ranged from 5 seers 2 chitaks per rupee in Calcutta and Dacca to 7 seers in Murshidabad, Midnapore and Chittagong.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.

ROBERT S. FINLOW,
Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 23rd March 1927.

Summary.—The week was practically rainless but for scattered showers in some East Bengal districts. Ploughing of lands for jute, paddy and other autumn crops continues, but sowings could not progress satisfactorily for want of rain. Harvesting of spring crops is much advanced. The state and prospects of standing crops are generally fair, but those of the mango crops in Rajshahi continue to be reported as bad. The average price of common rice for the province has risen by about 0·61 per cent. as compared with that of the previous week.
